INTRODUCTION

The hobby of collecting casino hotel room keys is growing every day. Most of these casino room keys have the name of the casino on them as well as other contact information. Many casino hotel managers realize the opportunities to create a positive image by advertising restaurants and special features at their property. Some, such as the Venetian in Las Vegas and the Reno Hilton like to promote conventions on their room keys. Sporting events are featured on the MGM Grand and Caesars Palace in Las Vegas. The Casino Chip and Gaming Token Collectors Club, Inc. is an international organization that has a Slot Card and Room Key Chapter. Contact the author for more information on the club.

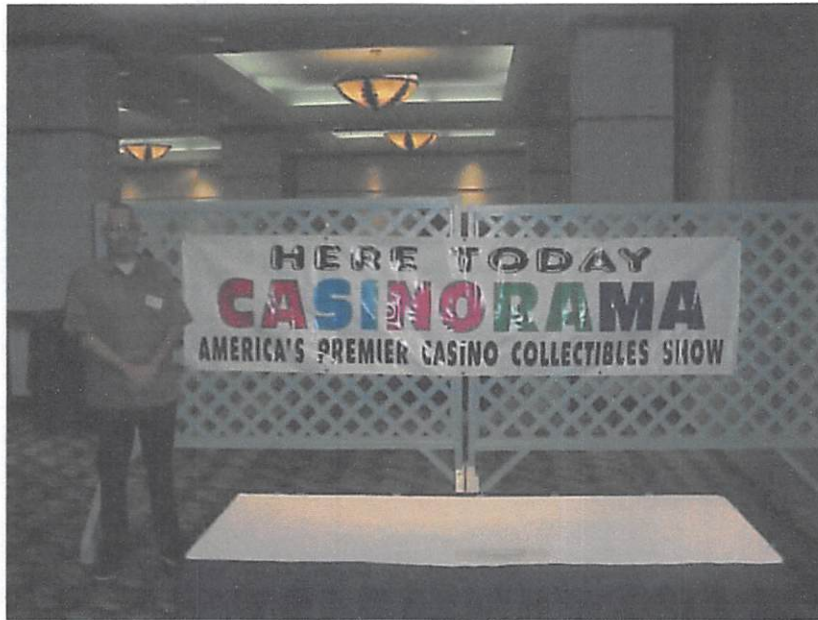

This book is designed to give the reader a guide to what keys, known to the author, are available. It is also a guide as to what keys are common, rare, and obsolete.

Many of the same keys are used for a long period of time and the hotel will just reorder from the manufacturer. The manufacturer will sometimes change the number or date on the back of the key, but the key remains the same otherwise. There could be some slight color variations as well. Because of the many numbers of keys with different numbers, they are not listed in the book.

If you enjoy visiting casinos and have a flair to collect, this is a great hobby. It is still in its infancy and most of the keys pictured in this book are still available from casinos or other collectors. Please contact the author if you have questions or comments, or if you have keys in your collections that are not mentioned in this book... Thanks and have fun!!!

If you have the first room key book authored by Carolyn Donley and Jim Munding, you will notice that the numbering system has changed. I hope this new system makes it easier for you to keep track of your collections.

MEET THE AUTHOR

Jim Munding

Jim Munding has been collecting casino items for over 20 years or more and is active in many casino hobby related organizations. He is President of the Southern California Chapter and the Slot Card and Room Key Chapter of the Casino Chip and Gaming Token Collectors Club, Inc. Jim hosts several casino collectable shows such as CASINORAMA in Arcadia, California, The RENO SHOW in Reno, Nevada and co-hosts the SUPER WEEK SHOW in Las Vegas, Nevada.

Jim has traveled around the country and world in search of casino items to add to his collection and is always happy to share any knowledge with fellow collectors.

Please contact Jim if you have any questions or comments about the exciting hobby of collecting casino room keys.

STAR RATING SYSTEM

The stars next to the keys represent how I estimate their rarity. I have been collecting casino room keys for many years and have seen many collections so I do have an idea of what is rare and what is common. You will notice that some of the star ratings have changed from my last book. This is because many of the keys are older and currently unavailable from the casinos. Others have surfaced making them less rare. This star rating system is my opinion only.

ONE STAR	*	Common, usually from a large, well known casino
TWO STARS	**	Usually from smaller, hard to get to casinos
THREE STARS	***	Older, not in use anymore
FOUR STARS	****	Very difficult to obtain and in only a few collections
FIVE STARS	*****	Closed hotel casino, limited edition, old issue, special edition, just plain "hard to get".
