INTRODUCTION

This is the tenth edition and the listings have grown to over 17,200 slot cards! Unknown and unlisted cards are discovered on a regular basis and the master copy of this guide is a never ending work in progress. This particular issue includes the addition of the CG numbers assigned to each and every slot card as it was entered onto the ChipGuide website. These numbers are also hot links in the electronic copy of the guide so you can click on any CG# and access the pictures of both sides of that particular card.

There is a slot card newsletter that helps keep everyone up to date with slot card news and current card issues: **MSOCK** (Mystic Society of Cards and Keys). Membership is inexpensive and worthwhile. **To join MSOCK, write to Don Phillips, 520 Charles Street, Brookhaven, MS 39601-4042.** Another very handy resource is the Slot Card BBS at www.slotcardbbs.com where you'll be able to connect with other collectors worldwide. I'll be posting news of new cards there regularly so be sure to check it out.

You might also want to check out the **Slot Card & Room Key Club**. Dues are \$5/year. For information on joining, contact David Johnston, 350 E. Desert Inn Rd. Apt. C-202, Las Vegas, NV 89109 or email: slotcardking@aol.com

I'd certainly like to thank all the collectors out there who helped correct mistakes and provided new information. You have helped make this resource much better than it would have been. It's impossible for one person to keep up with everything going on, so thanks again for all your help and support.

WHAT'S INCLUDED, WHAT ISN'T AND WHY!

Of course, we had to decide what constitutes a slot card in order to include it in this listing. The term "slot card" has become a generic term for all casino issued cards. Casinos issue cards for many reasons. The primary reason is to track the play of their customers on slot machines, as machines constitute the lion's share of casino business. However, many casinos use their slot cards to track play at the gaming tables. Other casinos issue separate cards for the tables. Occasionally, cards are issued for racebooks, sportsbooks, bingo, etc. Most of the time, these cards are made of plastic - the size and shape of a credit card. Sometimes, cards are made of paper or cardboard. There may also be some track wagering cards listed under the racetracks.

The first requirement for inclusion in this book is that "slot cards" must be shaped like a card! If it is a booklet or large paper item that doesn't resemble a card shape - then it isn't a "slot card". Yes, the item may have been used to track slot or table play, but if it isn't a card, it normally won't be listed here. **Slightly oversized cards may be listed, but odd, irregular ones are not.**

The second requirement for inclusion in this listing is that the "slot cards" must date from 1982 or later. Let us explain. Before 1982, there were casino cards issued as identification for check cashing, credit, and other reasons. However, it was in 1982 that cards were first manufactured for the purpose of tracking actual gaming action with the intent of giving rewards based on play. Legend has it that this brilliant idea came from an unknown executive at the Sands in Atlantic City. Thus began the modern era of slot cards. Early casino cards are great and would be an excellent subject for another book, but they are not listed here.

The third requirement for inclusion in this listing is that the "slot cards" were actually used to track gaming action (machines, tables or other) or were issued for promotional reasons to attract business. In other words, possession of the card must provide the holder with a casino benefit.

Note: There has been much confusion over the white or other colored cards many casinos use when they have run out of current stock. Most often these are embossed with the casino name BY THE CASINO, not the manufacturer. These temporary cards are not considered a new issue and are normally not included in the listings.

HOW TO USE THIS BOOK

An explanation of the codes and abbreviations

As you can see by looking at the first column heading, there are 6 different columns which help to identify, describe, and value the cards listed in this book.

The columns are: 1) "Issue", 2) "Predominant Colors/Description, 3) "Mfg.", 4) Rarity, 5) Price and 6) CG# -- with a checkbox appearing between the 5th and 6th columns.

What follows is an explanation for each column:

Issue - This column attempts to place all slot cards in chronological order. The earliest is listed first and so on. Cards with "1st", "2nd", etc. are specifically PLASTIC cards used primarily for machine play. **Paper cards are listed after the plastic cards and designated (PC).** There are other paper cards that were used for tracking purposes on games other than slots or tables. **These paper cards are designated with a PCX. All odd paper cards that don't fit the other categories are also placed here.**

Cards that were primarily used for table play are designated as table cards (TC) and placed after the regular issues. The TC designation applies regardless of whether the card is plastic or paper. Table cards are table cards, period. This way, collectors will be able to easily distinguish which cards are table cards, if they wish to collect them separately.

There are some casino-issued plastic cards that were not regular issues used for tracking play. These cards are generally special commemorative issues, tournament cards or promotional in nature - offering some kind of discount or benefit. **These cards are designated (XX). This is the catch-all category where the hard-to-fit cards are placed.**

Starting with this issue, a new CS designation was created for Cruise Ship ID cards that were also use as roomkeys and possibly in the onboard casinos. Cruise ships that had specific gambling related cards still have their cards listed with the issue numbers used in the past.

In summation, here are the six different card categories:

- 1st issue, etc. = Regular issue slot cards that primarily tracked slot play.
- XX= Plastic casino cards that were not a regular issue slot or table card. Usually promotional in nature.
- TC= Table Card (Any card, usually plastic, that tracked table play only.)
- PC= Paper Card that tracked slot play primarily.
- PCX= Paper Card that was used for anything except tracking slot or table play.
- CS = Cruise Ship ID cards also used as roomkeys and possibly in onboard casinos

Casinos with several issues of Paper or Table cards may be listed in order as PC1, PC2, PC3 or TC1, TC2, TC2 etc.

2) Predominant Colors/Description - This helps to identify the card based on color and design. The important thing to remember here is that the **PREDOMINANT** colors are listed - NOT ALL colors. Also the description is our best attempt to identify the card's design for easy reference. There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

3) "Mfg." - is the manufacturer's or distributor's mark identifying who made the card or possibly the card issue. This could be Faraday, Powercard, PPC, etc. There are only a handful of different marks to worry about, so this is an excellent way to identify cards quickly. Note that CPICA cards may be listed differently. For example, a "CPICA 23677" may be listed as "CP23677" in order to fit on one line.

4) Rarity - This is the best attempt to classify the scarcity/rarity of a given card, based on a consensus of knowledgeable slot card collectors. Some cards may be slightly underrated or overrated. Here's a list of the rarity values and what they mean:

- **Ex Rare** - A premier card that exists in only a few collections.
- **V Rare** - Missing from most collections- less than 25 total cards are known or suspected.
- **Rare** - Very hard to find. Less than 100 cards are presently known or suspected.
- **V Scarce** - Hard to find, but obtainable. A few hundred cards are known or suspected.
- **Scarce** - Obsolete, but obtainable. About 1000 cards probably still exist.
- **Common** - Widely and easily available. Huge quantities are known to exist.

Occasionally, there will be a plus (+) or a minus (-) after the rarity. A plus sign means that the card's rarity is almost at the next level. In other words, a Rare+ is almost rare enough to be listed as Very Rare. Conversely, a Rare- means that the card is almost Very Scarce.

Hard to get current cards (usually higher level cards) are sometimes Scarce, Very Scarce, Rare, etc.

Price - is intended to be the typical value of an issued card in excellent condition. (Excellent condition assumes card has very little or no use and no writing or punch holes - if the card comes without holes.) If no actual sales or offers are known, the price is a reasonable prediction based on availability, appeal, location and overall demand. **Blank cards usually sell for a little more than non-blank cards. Very common cards have a value of 0 since their value is less than \$1 typically.**

CG# - is the unique number assigned to that card when it was added onto the ChipGuide website. Clicking on the CG# in the electronic copy of this guide will access the pictures of that card that are stored on the ChipGuide. If any particular card does not have a CG# then it is not listed on the ChipGuide. CG numbers are not necessarily assigned in any particular order. If a particular card is listed in more than one place it will have the same CG# regardless of what casino it appears under.

A few last things –

There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

The term "Raised Printing" means that you can actually FEEL the card's design by rubbing your fingertip gently over the card's surface. Raised Printing makes a card more attractive, but this printing technique is generally found on older cards. Raised Printing is more expensive and makes the card more susceptible to wear. Just to clarify, **RAISED PRINTING DOES NOT REFER TO EMBOSSED PLAYER NAMES OR ACCOUNT NUMBERS ON A CARD – JUST THE DESIGN ITSELF.** In fact, this guide as a rule does not distinguish between ANY post-manufacturer changes on a card. Any exceptions to this rule will be noted in the book.

Happy Hunting! Robert Baker

IMPORTANT NOTES FOR THIS EDITION

- 1) **Major reorganization of the entire publication so that US casinos are now listed alphabetically by their casino name within each state. Previous sections for land based, Indian and Riverboat casinos plus Cardrooms and Racetracks have all been merged so that all casinos are listed together by state or province.**
- 2) General cleanup throughout to align the Slot Card Guide with entries on the Chip Guide website as slot card scans were added to the Chip Guide starting in 2013. There have been a lot of changes throughout that hopefully make cards easier to find once everyone gets used to the new format. Most of the major changes are documented here in the following notes to help with the transition.
- 3) **The CG numbers assigned to each slot card as they were added on the ChipGuide website have been added at the end of each entry in this guide. You can now access the online scans for any listed card from the ChipGuide website by clicking on the CG number listed for each card. You can also access the ChipGuide's entire list of items for any given casino as well as casino listings by state, province, country, etc. by clicking on the casino name, the state, the province, the country, etc. The United States, Canada, Australia and New Zealand are all done at this time and we're still working on the other countries. If there are no CG#s for a card, it's probably in the progress of being added on the ChipGuide. A number of race tracks and bingo halls are not listed on the ChipGuide so they probably do not have CG numbers and scans.**
- 4) Wherever older cards were discovered every attempt was made to minimize renumbering of existing original entries where possible. In most cases cards were entered as additional variations of existing issues but there are some exceptions.
- 5) Reorganized all the Cruise Ship listings, with cards specifically used for onboard casinos still listed as normal with their issue numbers. Other cards that were primarily used as ID cards for boarding and as roomkeys among other things, now have a special CSxx numbering to separate them from the strictly casino related cards. These cards may have been used in the onboard casinos but that was not their primary purpose.
- 6) Notes regarding different size/color mag stripes were removed unless essential to a particular card's description as there are mag stripe variations on most cards.
- 7) Removed a number of Florida video arcades that were mistakenly listed.
- 8) The former listing for Sonoma Joe's was changed to "The 101 Casino"

- 9) Aliante cards were reorganized after it was discovered there were several different variations of the 2012 cards.
- 10) The Casino Entry cards that were listed as the 3rd, 4th and 5th issues under the Ameristar U.S.A. entry in the Universal Slot Card section were relisted as XX issue cards and the following issues renumbered as the 3rd and 4th issues.
- 11) All of the Argosy casinos have been reorganized and the earlier common cards that were used at multiple properties are now listed under Argosy Gaming and Penn National (Argosy) in the universal section to hopefully make it much easier to find things. This eliminated a lot of duplication and missing entries, etc.
- 12) One group of the newer Big Dog cards from LV were removed since they were found to be gift cards and loyalty reward cards, not gambling related cards.
- 13) The combined Bonanza/Easy Street listing from Central City, CO was eliminated and the cards relisted under both properties with the newer cards listed appropriately for each.
- 14) Bullwhackers in Black Hawk was reorganized with the second set of issues renumbered to be sequential following the original 1st thru 7th issues for less confusion and to make listings on the ChipGuide easier.
- 15) Bullwhackers in Central City gold level cards were reorganized after a new card was found.
- 16) Some of the Casino Magic Bossier City, LA cards were removed since they're the same as what was in the combined MS Casino Magic listing. Then the combined Casino Magic listing was moved to the Universal section as Casino Magic Corp. with cards used at all three locations.
- 17) Cherokee multi-properties 3rd and 4th issues were found to be reversed and fixed. Cherokee Miami was removed since there was no evidence the location ever existed. The cards there originally were also listed under Catoosa and Roland. The Cherokee Tulsa was also removed since it was actually the Hard Rock in Tulsa.
- 18) Chip-In Casino, Chip-In Island Resort and Island Resort in MI were reorganized. The previous 4th thru 7th issues under "Chip-In Island Resort" are now listed as the 1st thru 4th issues from "Island Resort", with previous cards under Island Resort renumbered starting with the 5th issue. This better reflects the casino name changes and history of the card issues.
- 19) Choctaw multiple property cards were reorganized to fix various errors found.
- 20) Later issues with different years from Chukchansi in CA were removed after it was determined the years were printed by the casino and they were all the same cards. 10th Anniversary cards are XX issue.
- 21) Empress Casino in Hammond, IN was reorganized to include additional cards that were used at both Hammond, IN and Joliet, IL.
- 22) Reorganized 11th issue and beyond for Gilpin in CO to better define higher level cards and get them properly grouped. Plus the order now matches the similar Lodge higher level cards used around the same time.
- 23) Reorganized/renumbered issues for Golden Gates & Golden Gulch casinos in CO.
- 24) Cards previously listed under Golden Moon in MS are now included under Pearl River Resort following earlier Pearl River cards.
- 25) Found a new 1st issue Golden Nugget card from the original Wynn property in Atlantic City so renumbered the following cards .
- 26) Grand Casino Hinckley & Mille Lacs cards were reorganized with cards used at both locations now listed under a new combined listing.
- 27) Gulfstream issues were renumbered after the original 1st and 2nd issues were combined with a note about the white & pinkish-white reverses.
- 28) Split the Harrington Raceway & Midway Slots listings and renumbered the cards from Harrington Raceway in Harrington, DE.
- 29) Island Casinos reorganized into Cadillac, Cleopatra's & Classic casinos in WA.
- 30) Reorganized the Isle of Capri casinos in Biloxi and Vicksburg MS plus Bossier City and Lake Charles LA. Several cards were used at multiple locations but not previously listed under all the casinos where they were used.
- 31) Reorganized/renumbered last few issues under L'Auberge du Lac in LA.
- 32) Combined Mohican North Star and North Star Mohican Casino listings to sync with the ChipGuide. It's all the same casino and the name change was only minor.
- 33) Changed the cards from Montego Bay, Peppermill and Rainbow in Wendover so they're now listed under Resorts of Wendover.
- 34) Station Casinos 2000-2001 cards were reorganized slightly to get cards in correct order and removed cards that appear to have never existed.
- 35) Reorganized Princess Cruises to eliminate all the individual ship entries and just list the various card issues for a combined Princess Cruises listing to be consistent with all the other cruise ship card listings.
- 36) Reorganized/renumbered last few issues under Sandia in NM.
- 37) Reorganized Seminole casinos in FL after a few errors were discovered.
- 38) Completely reorganized the Seneca casinos and gaming centers in NY.
- 39) Split Deadwood, SD Silverado and Silverado-Franklin Historic Hotel into separate listings.

- 40) Reorganized the first issue cards from Twin Spires Club after additional variations were discovered.
- 41) Canadian casinos were moved to a separate section and listed by province. Also reorganized the Casino Rama, Deerfoot Inn, Fallsview/Casino Niagara, Windsor Raceway. Charity Casinos, OLG Slots, Players Club, SIGA and Casino Regina entries.
- 42) All African casinos were previously just listed under "Africa" and are now listed under the actual country in Africa after numerous additions.
- 43) Army Recreation Machine Program listing was moved to the Universal Cards section since these are used in various countries.
- 44) Former 8th issue card under the Marriott/Stellaris in Aruba was deleted after it was determined to be a room key and all following issues were renumbered.
- 45) Conrad Jupiters in Australia was renamed Jupiters Gold Coast and reorganized after two cards listed earlier were discovered to be hotel royalty cards and not casino related so were deleted.
- 46) Reorganized Casino Loutraki entries in Greece after a number of earlier unlisted cards were found.
- 47) San Juan Marriott & San Juan Stellaris casino listings under Puerto Rico were merged under a single listing since it's the same casino.
- 48) England, Scotland and Wales entries were merged into the United Kingdom listings.
- 49) Foreign casino entry passes/tickets were removed and no longer listed.

Before that happened, however, employee Jim Kruse asked if he could keep one card and put his name on it as a souvenir. He was allowed to do so. Shortly after, the rest of the shipment was thrown into a wood chipper outside the casino!)

MONTANA

(NOTE: Non-Indian Montana casinos were very small. Cards were very difficult to obtain. As a general rule, most non-Indian casinos did not want to issue cards to non-locals! If you were lucky enough to get one issued, you only got ONE. Most had you fill out an application and return 1-2 weeks later to pick it up. Most of the non-Indian Montana casinos did away with cards and went to a pin number, or magnetic tab although some are back to using standard slot cards again. Values are based on their previous availability for those casinos that have stopped using cards.)

-----------------	---------------------------------	------	---------	-----	---	----------

(Not only is this card extremely rare, 8 known at press time, it is very important because it's Reno's first slot card. We believe the Slot Club opened sometime in late 1986 or early 1987, but closed well before Harolds shut its doors permanently in 1995. A bidding war on Ebay in Spring, 2001 resulted in a then record high bid of \$310 for this slot card.)

(The crinkled metallic cards have a holographic background and appear bright or dull depending on the angle they are viewed. One set of cards will appear bright when viewed at the same angle that the other set appears dull.)

(Here's how "Reel Rewards" work: When a customer redeems his points for cash, he is given the option of taking double the amount in "Reel Rewards". Since it's a good deal, most people redeem their points this way. The customer is given the Reel Rewards cards and has to play the amount through at least once. Therefore, if he has a \$20 card, he has to gamble \$20 at least once. Whatever is left over can be cashed out.)

That brings the total known pieces in collectors' hands to exactly 3. It is believed that this VIP Gold Card was introduced shortly before the Landmark closed. This card has brought the highest price ever for a slot card: \$1085 on Ebay before the 3 rd was discovered.)					

(NOTE: Before closing, the Landmark ran out of cards. They used a blank silver card and just printed "Landmark" on the obverse. As this was not a manufacturer card, it is no longer listed here as an "officially" collectible card. There was also a blank silver card which said "Landmark Hotel and Casino Wild Card.")

 (Blue cards were only issued to high rollers. Though the reverse indicates the card was used on slots and tables, the only known examples are from table play. Several high rolling machine players at the time did not receive these blue cards, but rather the green ones. We know that management felt that the blue color was inconsistent with MGM's color scheme and replaced them with the green cards very quickly, perhaps explaining why other players never got them.)

For example, on the second line of the reverse, the exclamation mark is over the "w" instead of the "h" like the 3 rd issue. As of now, this red tongue version appears to be much rarer than the white tongue and a case might eventually be made that it should be rated Ex Rare.)

(Above cards are promotional cards given to overnight bus guests. When the cards are placed in the machine, credits are given to the player. Once these credits are played, the card is "no good" The players tend to leave the cards laying around, which is why these cards are so plentiful. The White card is only worth a dollar. The Blue is the next highest, followed by Lavender, Peach, And Red. Other colors are rarely seen. **Note that there are several variations of some colors.** The Sundowner started its slot club with the customer list from the Virginian - which it owned.)

(These are among the most desirable of Reno cards. Less than 5 "Wrangler" cards have surfaced, and only 2 "Buckaroo Club" cards are currently known. In an earlier Edition these cards were mistakenly reported as issued in the early 1990's, but later received first hand testimony to the contrary from collector Emile Giroux. He was possibly the last person ever to be issued a card in this club as he was there right before they closed in July, 1997. He was exactly the 700th person to be issued a permanent Buckaroo Club card. The Virginian was a slot only casino from Dec 1996 to July 1997, when it closed due to a near-complete lack of business!)

CG numbers may not be listed if there are no scans on the ChipGuide yet for that entry! Many of these cards are ID or roomkey cards that may have also been used in the onboard casino so they are included here to at least have them documented. Casino related cards have the normal issue numbers as found throughout this guide. Cruise Ship ID/roomkey cards have a special designation using CS numbers so they are identified separately.

RUSSIA**All Russian casinos were closed in June 2009 and it is unknown at this time which casinos may have re-opened where!**

Note: Most cards issued from Russia were not in English. The casinos are listed under the English translation & English letters/numbers where used where possible in the Russian words. **If you can't find the desired casino with "Casino" as the first word in it's name, try checking the same casino with "Casino" as the last word in it's name.**

Also note that when the casinos went from embossed player information to printed player information the reverse text was typically moved. Many of these variations may not yet be listed so be aware these may exist!
