INTRODUCTION

This is the first quarterly release of the eleventh edition and the listings have grown to **over 18,200** slot cards! Unknown and unlisted cards are discovered on a regular basis and the master copy of this guide is a never ending work in progress. The guide now includes the CG numbers assigned to each and every slot card as it was entered onto the ChipGuide website. These numbers are also hot links in the electronic copy of the guide so you can click on any CG# and access the pictures of both sides of that particular card.

A very handy resource is the Slot Card BBS at www.slotcardbbs.com where you'll be able to connect with other collectors worldwide. I'll be posting news of new cards there regularly so be sure to check it out.

You might also want to check out the **Slot Card & Room Key Club**. Dues are \$5/year. For information on joining, contact David Johnston, 350 E. Desert Inn Rd. Apt. C-202, Las Vegas, NV 89109 or email: slotcardking@aol.com

I'd certainly like to thank all the collectors out there who helped correct mistakes and provided new information plus those submitting scans to the ChipGuide so we can include as much information as possible. Everyone has helped make this resource much better than it would have been. It's impossible for one person to keep up with everything going on, so thanks again for all your help and support.

WHAT'S INCLUDED, WHAT ISN'T AND WHY!

Of course, we had to decide what constitutes a slot card in order to include it in this listing. The term "slot card" has become a generic term for all casino issued cards. Casinos issue cards for many reasons. The primary reason is to track the play of their customers on slot machines, as machines constitute the lion's share of casino business. However, many casinos use their slot cards to track play at the gaming tables. Other casinos issue separate cards for the tables. Occasionally, cards are issued for racebooks, sportsbooks, bingo, etc. Most of the time, these cards are made of plastic - the size and shape of a credit card. Sometimes, cards are made of paper or cardboard. There may also be some track wagering cards listed under the racetracks.

The first requirement for inclusion in this book is that "slot cards" must be shaped like a card! If it is a booklet or large paper item that doesn't resemble a card shape - then it isn't a "slot card". Yes, the item may have been used to track slot or table play, but if it isn't a card, it normally won't be listed here. **Slightly oversized cards may be listed, but odd, irregular ones are not.**

The second requirement for inclusion in this listing is that the "slot cards" should date from 1982 or later. Let us explain. Before 1982, there were casino cards issued as identification for check cashing, credit, and other reasons. However, it was in 1982 that cards were first manufactured for the purpose of tracking actual gaming action with the intent of giving rewards based on play. Legend has it that this brilliant idea came from an unknown executive at the Sands in Atlantic City. Thus began the modern era of slot cards. Early casino cards are great and would be an excellent subject for another book, but they are not listed here.

The third requirement for inclusion in this listing is that the "slot cards" were actually used to track gaming action (machines, tables or other) or were issued for promotional reasons to attract business. In other words, possession of the card must provide the holder with a casino benefit.

Note: There has been much confusion over the white or other colored cards many casinos use when they have run out of current stock. Most often these are embossed with the casino name BY THE CASINO, not the manufacturer. These temporary cards are not considered a new issue and are normally not included in the listings.

HOW TO USE THIS BOOK

An explanation of the codes and abbreviations

As you can see by looking at the first column heading, there are 6 different columns which help to identify, describe, and value the cards listed in this book.

The columns are: 1) "Issue", 2) "Predominant Colors/Description, 3) "Mfg.", 4) Rarity, 5) Price and 6) CG# -- with a checkbox appearing between the 5th and 6th columns.

What follows is an explanation for each column:

Issue - This column attempts to place all slot cards in chronological order. The earliest is listed first and so on. Cards with "1st", "2nd", etc. are specifically PLASTIC cards used primarily for machine play. **Paper cards are listed after the plastic cards and designated (PC).** There are other paper cards that were used for tracking purposes on games other than slots or tables. **These paper cards are designated with a PCX. All odd paper cards that don't fit the other categories are also placed here.**

Cards that were primarily used for table play are designated as table cards (TC) and placed after the regular issues. The TC designation applies regardless of whether the card is plastic or paper. Table cards are table cards, period. This way, collectors will be able to easily distinguish which cards are table cards, if they wish to collect them separately.

There are some casino-issued plastic cards that were not regular issues used for tracking play. These cards are generally special commemorative issues, tournament cards or promotional in nature - offering some kind of discount or benefit. **These cards are designated (XX). This is the catch-all category where the hard-to-fit cards are placed.**

Starting with this issue, a new CS designation was created for Cruise Ship ID cards that were also use as roomkeys and possibly in the onboard casinos. Cruise ships that had specific gambling related cards still have their cards listed with the issue numbers used in the past.

In summation, here are the six different card categories:

- **1st issue, etc. = Regular issue slot cards that primarily tracked slot play.**
- **XX= Plastic casino cards that were not a regular issue slot or table card. Usually promotional in nature.**
- **TC= Table Card (Any card, usually plastic, that tracked table play only.)**
- **PC= Paper Card that tracked slot play primarily.**
- **PCX= Paper Card that was used for anything except tracking slot or table play.**
- **CS = Cruise Ship ID cards also used as roomkeys and possibly in onboard casinos**

Casinos with several issues of Paper or Table cards may be listed in order as PC1, PC2, PC3 or TC1, TC2, TC2 etc.

2) Predominant Colors/Description - This helps to identify the card based on color and design. The important thing to remember here is that the **PREDOMINANT** colors are listed - NOT ALL colors. Also the description is our best attempt to identify the card's design for easy reference. There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

3) "Mfg." - is the manufacturer's or distributor's mark identifying who made the card or possibly the card issue. This could be Faraday, Powercard, PPC, etc. There are only a handful of different marks to worry about, so this is an excellent way to identify cards quickly. Note that CPICA cards may be listed differently. For example, a "CPICA 23677" may be listed as "CP23677" in order to fit on one line.

4) Rarity - This is the best attempt to classify the scarcity/rarity of a given card, based on a consensus of knowledgeable slot card collectors. Some cards may be slightly underrated or overrated. Here's a list of the rarity values and what they mean:

- **Ex Rare - A premier card that exists in only a few collections.**
- **V Rare - Missing from most collections- less than 25 total cards are known or suspected.**
- **Rare - Very hard to find. Less than 100 cards are presently known or suspected.**
- **V Scarce - Hard to find, but obtainable. A few hundred cards are known or suspected.**
- **Scarce - Obsolete, but obtainable. About 1000 cards probably still exist.**
- **Common - Widely and easily available. Huge quantities are known to exist.**

Occasionally, there will be a plus (+) or a minus (-) after the rarity. A plus sign means that the card's rarity is almost at the next level. In other words, a Rare+ is almost rare enough to be listed as Very Rare. Conversely, a Rare- means that the card is almost Very Scarce.

Hard to get current cards (usually higher level cards) are sometimes Scarce, Very Scarce, Rare, etc.

Price - is intended to be the typical value of an issued card in excellent condition. (Excellent condition assumes card has very little or no use and no writing or punch holes - if the card comes without holes.) If no actual sales or offers are known, the price is a reasonable prediction based on availability, appeal, location and overall demand. **Blank cards usually sell for a little more than non-blank cards. Very common cards have a value of 0 since their value is less than \$1 typically.**

CG# - is the unique number assigned to that card when it was added onto the ChipGuide website. Clicking on the CG# in the electronic copy of this guide will access the pictures of that card that are stored on the ChipGuide. If any particular card does not have a CG# then it is not listed on the ChipGuide. CG numbers are not necessarily assigned in any particular order. If a particular card is listed in more than one place it will have the same CG# regardless of what casino it appears under.

A few last things –

There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

The term "Raised Printing" means that you can actually FEEL the card's design by rubbing your fingertip gently over the card's surface. Raised Printing makes a card more attractive, but this printing technique is generally found on older cards. Raised Printing is more expensive and makes the card more susceptible to wear. Just to clarify, **RAISED PRINTING DOES NOT REFER TO EMBOSSED PLAYER NAMES OR ACCOUNT NUMBERS ON A CARD – JUST THE DESIGN ITSELF.** In fact, this guide as a rule does not distinguish between ANY post-manufacturer changes on a card. Any exceptions to this rule will be noted in the book.

Happy Hunting! Robert Baker

IMPORTANT NOTES FOR THIS EDITION

- 1) Wherever older cards were discovered every attempt is usually made to minimize renumbering of existing original entries where possible. In most cases cards are entered as additional variations of existing issues but there may be exceptions.
- 2) **All changes since the 10th edition in January 2015 are marked in RED.** You'll notice that any new casinos that were added will be shown in red in the index also.
- 3) A few casino listings were found to be out of order alphabetically and were moved to fix that but these are not color coded since nothing else really changed.
- 4) If a hyperlink was missing or incorrect, it was marked in red when corrected.
- 5) If a CG# is missing for a particular card under a casino that already has scans on the ChipGuide then that card is still being added on the ChipGuide and the CG# will be added in the next release of the Slot Card Guide.
- 6) Eldorado Casino in Shreveport, LA was complete reorganized to straighten out the issue order after additional cards were discovered.
- 7) Under Hollywood Casino in Baton Rouge, LA the original 2nd issue cards were removed and the 3rd issue was relabeled as 2nd issue. It appears the original listings were incorrect since the original 2nd issue cards were never found.
- 8) Club Grazie cards from Venetian Casino in LV were reorganized.
- 9) Wyndham Resort in NV was removed, it was found that the cards previously listed were only room keys and *not* used for gaming.
- 10) **All changes since the 10.1 edition in April 2015 are marked in BLUE.**
- 11) Many of the card descriptions that mentioned the card was "dated" were changed to indicate it's the "copyright" date to avoid confusion with casino printed expiration dates, etc.
- 12) Cherokee Casino in Claremont, OK was combined with the Will Rogers Downs listing that was added in the last release since they were actually the same property.
- 13) Cards previously listed as 3rd issue from Mesquite Gaming were found to never have been issued so were removed and the following issue renumbered.
- 14) Costa Cruises were totally reorganized with the cards now listed under each separate cruise ship instead of all combined since the cards are specifically made for each cruise ship with the ship's name as part of the card design.
- 15) Royal Caribbean cruise ship cards were completely reorganized when working on getting this guide in sync with the cards that were on the ChipGuide.

- 16) Casinos Austria issues were renumbered after an earlier card was recently reported.
- 17) Cards listed for Mocha Clubs in Macau were reorganized and issues renumbered to better organize and document the cards.
- 18) **All changes since the 10.2 edition in July 2015 are marked in GREEN.**
- 19) Some of the Comanche cards in OK were reorganized with a new Comanche Nation Casinos entry created and 3 of the Comanche Red River cards moved to the new entry since they were really multi-property cards.
- 20) Grand Casino in Mille Lacs/Hinckley, MN was slightly reorganized. Previously 4b issue cards were really part of the 6th issue and have been moved.
- 21) Seneca Irving and Salamanca casinos were reorganized with a Seneca Gaming listing added for the cards used at multiple locations, including the new Oil Sands location.
- 22) Fixed all the state abbreviations for the Wyoming casinos that were somehow mistakenly marked as WI previously.
- 23) Carnival Cruise cards CS10 thru CS12 issues were reordered to get them in the correct issue order based on the cruise dates on numerous cards.
- 24) Norwegian Cruise Line was totally reorganized with many early cards now listed under each separate cruise ship instead of all combined since those cards were specifically made for each cruise ship with the ship's name as part of the card design. Later generic cards that have the cruise ship name printed along with the passenger's info are listed under the generic Norwegian Cruise Line or NCL as before but issues have been renumbered.
- 25) A note was added to point out that some of the Australian cards were actually local social club membership cards. Some clubs offered gambling of some sort and their membership cards were actually used to track their play. Cards that have been confirmed to have been used for gambling in some way have CG#s listed for their cards. Other membership cards listed without CG#s are still being investigated and may be removed later if not found to have any gambling related usage.
- 26) **All changes since the 10.3 edition in October 2015 are marked in PURPLE.**
- 27) There were a number of dollar valuation changes made throughout some of the more recent Missouri and Oklahoma cards based on input from a local collector in the area and his experiences at those casinos.
- 28) Mohegan Sun 17th and 18th issues were reorganized into 5 different issues based on variations in the phone numbers on the backs of the cards. Only those levels that could be confirmed are listed for each issue and additional levels will be added if they're discovered later.
- 29) The Bally Wulff listing was moved from the Germany slot card listings to the Distributor Cards section.
- 30) Casinos Austria were reorganized again with a better issue numbering scheme to accommodate possibly missing variations, etc.
- 31) Some of the Macau Casino Lisboa cards were removed since they were really room key cards and not slot cards. The remaining cards were then reorganized.
- 32) Sands Macau was reorganized with Sands China Ltd casino management group added for cards used at Sands Macau, Sands Cotai and Venetian casinos in Macau.
- 33) City of Dreams was reorganized with a Melco Crown Gaming casino management group added for cards used at Casino Altira, City of Dreams and Studio City in Macau.
- 34) Additional changes were made throughout the Macau slot card listings as we added the scans and information on the ChipGuide and double checked all the entries.
- 35) Golden Nugget Landry player number prefixes were added in Appendix A

(Raised printing. This is the rarest of all known slot cards – now and forever Unique! This card was intended to be a higher level card. However, from the time it was ordered to the time it was received by the slot club, upper level management had changed. The new management didn't like the card and decided to destroy the entire shipment. Before that happened, however, employee Jim Kruse asked if he could keep one card and put his name on it as a souvenir. He was allowed to do so. Shortly after, the rest of the shipment was thrown into a wood chipper outside the casino!)

MONTANA

(NOTE: Non-Indian Montana casinos were very small. Cards were very difficult to obtain. As a general rule, most non-Indian casinos did not want to issue cards to non-locals! If you were lucky enough to get one issued, you only got ONE. Most had you fill out an application and return 1-2 weeks later to pick it up. Most of the non-Indian Montana casinos did away with cards and went to a pin number, or magnetic tab although some are back to using standard slot cards again. Values are based on their previous availability for those casinos that have stopped using cards.)

(Here's how "Reel Rewards" work: When a customer redeems his points for cash, he is given the option of taking double the amount in "Reel Rewards". Since it's a good deal, most people redeem their points this way. The customer is given the Reel Rewards cards and has to play the amount through at least once. Therefore, if he has a \$20 card, he has to gamble \$20 at least once. Whatever is left over can be cashed out.)

-----------------	----------------------------------	------	---------	-----	----------

(Raised Printing. One blank appeared on the market sometime in early 2002 that came from a former Landmark employee. She only found the one card, despite unfounded rumors to the contrary. That brings the total known pieces in collectors' hands to exactly 3. It is believed that this VIP Gold Card was introduced shortly before the Landmark closed. This card has brought the highest price ever for a slot card: \$1085 on Ebay before the 3rd was discovered.)

(NOTE: Before closing, the Landmark ran out of cards. They used a blank silver card and just printed "Landmark" on the obverse. As this was not a manufacturer card, it is no longer listed here as an "officially" collectible card. There was also a blank silver card which said "Landmark Hotel and Casino Wild Card.")

For example, on the second line of the reverse, the exclamation mark is over the "w" instead of the "h" like the 3 rd issue. As of now, this red tongue version appears to be much rarer than the white tongue and a case might eventually be made that it should be rated Ex Rare.)

(Above cards are promotional cards given to overnight bus guests. When the cards are placed in the machine, credits are given to the player. Once these credits are played, the card is "no good" The players tend to leave the cards laying around, which is why these cards are so plentiful. The White card is only worth a dollar. The Blue is the next highest, followed by Lavender, Peach, And Red. Other colors are rarely seen. **Note that there are several variations of some colors.** The Sundowner started its slot club with the customer list from the Virginian - which it owned.)

RUSSIA

All Russian casinos were closed in June 2009 and it is unknown at this time which casinos may have re-opened where!

Note: Most cards issued from Russia were not in English. The casinos are listed under the English translation & English letters/numbers where used where possible in the Russian words. **If you can't find the desired casino with "Casino" as the first word in it's name, try checking the same casino with "Casino" as the last word in it's name.**

Also note that when the casinos went from embossed player information to printed player information the reverse text was typically moved. Many of these variations may not yet be listed so be aware these may exist!
