## INTRODUCTION

This is the next quarterly release of this publication and the listings have grown to **over 21,250** slot cards! Unknown and unlisted cards are discovered on a regular basis and the master copy of this guide is a never ending work in progress. The guide includes the CG numbers assigned to each and every slot card as it was entered onto the ChipGuide website. These numbers are also hot links in the electronic copy of the guide so you can click on any CG# and access the pictures of both sides of that particular card. Additional SCG# numbers work similar to the CG#s to access scans of other items from the Slot Card Guide website that were not added on the ChipGuide for whatever reason.

A very handy resource is the Slot Card BBS at [www.slotcardbbs.com](http://www.slotcardbbs.com) where you'll be able to connect with other collectors worldwide. I'll be posting news of new cards there regularly so be sure to check it out.

You might also want to check out the **Slot Card & Room Key Club**. Dues are \$5/year. For information on joining, contact David Johnston, 350 E. Desert Inn Rd. Apt. C-202, Las Vegas, NV 89109 or email: [slotcardking@aol.com](mailto:slotcardking@aol.com)

I'd certainly like to thank all the collectors out there who helped correct mistakes and provided new information plus those submitting scans to the ChipGuide so we can include as much information as possible. Everyone has helped make this resource much better than it would have been. It's impossible for one person to keep up with everything going on, so thanks again for all your help and support.

## WHAT'S INCLUDED, WHAT ISN'T AND WHY!

Of course, we had to decide what constitutes a slot card in order to include it in this listing. The term "slot card" has become a generic term for all casino issued cards. Casinos issue cards for many reasons. The primary reason is to track the play of their customers on slot machines, as machines constitute the lion's share of casino business. However, many casinos use their slot cards to track play at the gaming tables. Other casinos issue separate cards for the tables. Occasionally, cards are issued for racebooks, sportsbooks, bingo, etc. Most of the time, these cards are made of plastic - the size and shape of a credit card. Sometimes, cards are made of paper or cardboard and newer RFID player tracking devices resemble key fobs. There may also be some track wagering cards listed under the racetracks.

**The first requirement for inclusion in this book is that "slot cards" must be shaped like a card!** If it is a booklet or large paper item that doesn't resemble a card shape - then it isn't a "slot card". **Newer RFID type key fobs used for player tracking are now being added after they started to appear in 2015.**

**The second requirement for inclusion in this listing is that the "slot cards" should date from 1982 or later.** Let us explain. Before 1982, there were casino cards issued as identification for check cashing, credit, and other reasons. However, it was in 1982 that cards were first manufactured for the purpose of tracking actual gaming action with the intent of giving rewards based on play. Legend has it that this brilliant idea came from an unknown executive at the Sands in Atlantic City. Thus began the modern era of slot cards. Early casino cards are great and would be an excellent subject for another book, but they are not listed here.

**The third requirement for inclusion in this listing is that the "slot cards" were actually used to track gaming action (machines, tables or other) or were issued for promotional reasons to attract business. In other words, possession of the card must provide the holder with a casino benefit.**

**Note: There has been much confusion over the white or other colored cards many casinos use when they have run out of current stock. Most often these are embossed with the casino name BY THE CASINO, not the manufacturer. These temporary cards are not considered a new issue and are normally not included in the listings. Occasionally a casino might have used a room key as a temporary slot card and those have been listed where known.**

## HOW TO USE THIS GUIDE

### An explanation of the codes and abbreviations

**As you can see by looking at the first column heading, there are 6 different columns which help to identify, describe, and value the cards listed in this book.**

**The columns are: 1) "Issue", 2) "Predominant Colors/Description, 3) "Mfg.", 4) Rarity, 5) Price and 6) CG# or SCG# -- with a checkbox appearing between the 5<sup>th</sup> and 6<sup>th</sup> columns.**

### What follows is an explanation for each column:

**Issue** - This column attempts to place all slot cards in chronological order. The earliest is listed first and so on. Cards with "1<sup>st</sup>", "2<sup>nd</sup>", etc. are specifically PLASTIC cards used primarily for machine play. **Paper cards are listed after the plastic cards and designated (PC).** There are other paper cards that were used for tracking purposes on games other than slots or tables. **These paper cards are designated with a PCX. All odd paper cards that don't fit the other categories are also placed here.**

**Cards that were primarily used for table play are designated as table cards (TC)** and placed after the regular issues. The TC designation applies regardless of whether the card is plastic or paper. Table cards are table cards, period. This way, collectors will be able to easily distinguish which cards are table cards, if they wish to collect them separately.

There are some casino-issued plastic cards that were not regular issues used for tracking play. These cards are generally special commemorative issues, tournament cards or promotional in nature - offering some kind of discount or benefit. **These cards are designated (XX). This is the catch-all category where the hard-to-fit cards are placed.**

Starting with this issue, a new CS designation was created for Cruise Ship ID cards that were also use as roomkeys and possibly in the onboard casinos. Cruise ships that had specific gambling related cards still have their cards listed with the issue numbers used in the past.

### In summation, here are the six different card categories:

- **1<sup>st</sup> issue, etc. = Regular issue slot cards that primarily tracked slot play.**
- **XX= Plastic casino cards that were not a regular issue slot or table card. Usually promotional in nature.**
- **TC= Table Card (Any card, usually plastic, that tracked table play only.)**
- **PC= Paper Card that tracked slot play primarily.**
- **PCX= Paper Card that was used for anything except tracking slot or table play.**
- **CS = Cruise Ship ID cards also used as roomkeys and possibly in onboard casinos**

Casinos with several issues of Paper or Table cards may be listed in order as PC1, PC2, PC3 or TC1, TC2, TC2 etc.

**2) Predominant Colors/Description** - This helps to identify the card based on color and design. The important thing to remember here is that the **PREDOMINANT** colors are listed - NOT ALL colors. Also the description is our best attempt to identify the card's design for easy reference. There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

**3) "Mfg."** - is the manufacturer's or distributor's mark identifying who made the card or possibly the card issue. This could be Faraday, Powercard, PPC, etc. There are only a handful of different marks to worry about, so this is an excellent way to identify cards quickly. Note that CPICA cards may be listed differently. For example, a "CPICA 23677" may be listed as "CP23677" in order to fit on one line.

**4) Rarity** - This is the best attempt to classify the scarcity/rarity of a given card, based on a consensus of knowledgeable slot card collectors. Some cards may be slightly underrated or overrated. Here's a list of the rarity values and what they mean:

- **Ex Rare - A premier card that exists in only a few collections.**
- **V Rare - Missing from most collections- less than 25 total cards are known or suspected.**
- **Rare - Very hard to find. Less than 100 cards are presently known or suspected.**
- **V Scarce - Hard to find, but obtainable. A few hundred cards are known or suspected.**
- **Scarce - Obsolete, but obtainable. About 1000 cards probably still exist.**
- **Common - Widely and easily available. Huge quantities are known to exist.**

**Occasionally, there will be a plus (+) or a minus (-) after the rarity. A plus sign means that the card's rarity is almost at the next level. In other words, a Rare+ is almost rare enough to be listed as Very Rare. Conversely, a Rare- means that the card is almost Very Scarce.**

**Hard to get current cards (usually higher level cards) are sometimes Scarce, Very Scarce, Rare, etc.**

**Price** - is intended to be the typical value of an issued card in excellent condition. (Excellent condition assumes card has very little or no use and no writing or punch holes - if the card comes without holes.) If no actual sales or offers are known, the price is a reasonable prediction based on availability, appeal, location and overall demand. **Blank cards usually sell for a little more than non-blank cards. Very common cards have a value of 0 since their value is less than \$1 typically.**

**CG#** - is the unique number assigned to that card when it was added onto the ChipGuide website. Clicking on the CG# in the electronic copy of this guide will access the pictures of that card that are stored on the ChipGuide. CG numbers are not necessarily assigned in any particular order. If a particular card is listed in more than one place it will have the same CG# regardless of what casino it appears under. For other cards that could not be added on the ChipGuide, you'll find a **SCG#** that works in a similar fashion but links to scans on the SlotCardGuide.com website.

### A few last things –

There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

The term "Raised Printing" means that you can actually FEEL the card's design by rubbing your fingertip gently over the card's surface. Raised Printing makes a card more attractive, but this printing technique is generally found on older cards. Raised Printing is more expensive and makes the card more susceptible to wear. Just to clarify, **RAISED PRINTING DOES NOT REFER TO EMBOSSED PLAYER NAMES OR ACCOUNT NUMBERS ON A CARD – JUST THE DESIGN ITSELF.** In fact, this guide as a rule does not distinguish between ANY post-manufacturer changes on a card. Any exceptions to this rule will be noted in the guide.

*Happy Hunting! .... Robert Baker*

## WHERE TO GET COPIES OF THIS GUIDE?

For electronic copies of this publication you can go to the website:

[www.slotcardguide.com](http://www.slotcardguide.com)

where you can download the latest release as well as any previous release you may need to reference. New releases should be available every three months.

In lieu of selling copies as in the past, copies of the guide are now free while donations are appreciated to help cover costs and the efforts to keep this document going. There is a PayPal "DONATE" button on the website where you can donate any amount you feel comfortable contributing to the cause. Note that a portion of all donations received are now shared with the slotcardbbs to help support that effort as well!

Or you can send PayPal donations directly to my email address at:

[rbakerpc@gmail.com](mailto:rbakerpc@gmail.com)

If you'd like to donate any slot cards, have some old slot cards you no longer want, or you'd just like to mail a check or money order to contribute, you can reach me by mail at:

*Hopefully this change in the way the guide is distributed will help to get more people interested in the hobby.*

*Spread the word and let others know !*

## IMPORTANT NOTES FOR THIS EDITION

- 1) Wherever older cards were discovered every attempt is usually made to minimize renumbering of existing original entries where possible. In most cases cards are entered as additional variations of existing issues but there may be exceptions.
- 2) **All changes since the 13<sup>th</sup> edition in January 2018 are marked in RED.** You'll notice that any new casinos that were added will be shown in red in the index also.
- 3) A few hyperlinks to the photos on the ChipGuide were reported with problems and all have been fixed in this release. Please report any problems you might encounter and I'll get them fixed in the next release. The hyperlinks are manually entered so there's always a possibility for error.
- 4) Lake of the Torches Casino in WI was reorganized from the 7<sup>th</sup> issue and beyond after one of one of the early Distinguished cards was discovered and now listed in the 7<sup>th</sup> issue.
- 5) Several MGM Mlife cards from the 20<sup>th</sup> and 21<sup>st</sup> issues that were never verified or actually reported were removed from the guide.
- 6) A new 4<sup>th</sup> issue card was found from the Montblue Casino in Lake Tahoe, NV and the following issues were renumbered.
- 7) The cards under Terrible's St. Jo Frontier Casino in Missouri had to be renumbered when a new 1<sup>st</sup> issue card was found with an earlier cpi#.
- 8) Several listings for Cercle casinos in France were removed after they were identified as simple membership cards and not used for play tracking, only for entrance to the casino.
- 9) **All changes since the 13.1 edition in April 2018 are marked in BLUE.**
- 10) Many of the original casino hyperlinks had a setting to force the view on the ChipGuide to open the slot card section automatically but there were problems with many of those links as things changed on the ChipGuide. All of the casino hyperlinks were edited to open the users default casino page when they click on the casino name. While doing that, a number of issues were discovered and fixed. I did manually check all of the casino links but it's still possible I might have missed something somewhere. If you do encounter any issues with hyperlinks to the ChipGuide please let me know so that I can fix them in the next release of this guide.
- 11) A.C.E. Rewards universal cards reorganized to better group issues.

- 12) Aliante Casino in Las Vegas, NV 2<sup>nd</sup> issue cards reorganized to better group the cards and make them easier to document.
- 13) Harrah's special issue (XX) cards from XX48 and later had to be renumbered after a Canadian Veterans card was found from 2017.
- 14) Money Plays cards were reorganized to put the gold card as the 1<sup>st</sup> issue.
- 15) Montbleu 5<sup>th</sup> issue cards were reorganized based on the logos across the bottom of the back and split into 2 separate issues to better group the cards.
- 16) A new set of Palms cards copyright 2015 were discovered and the issues from later years were renumbered to allow adding the new found issue.
- 17) A new 2009 Rhythm City card was discovered and all following issues were bumped up from the 4<sup>th</sup> issue on.
- 18) All cards from the Station Casinos in Las Vegas, NV from 2015 and beyond had to be reorganized when additional military cards were discovered that were copyright 2015 and 2016.
- 19) All the Wynn and Encore cards were reorganized to reflect the fact that most cards were really resort ID cards, mainly used as room keys but also used in the casino before the newer RED CARD slot cards were put in use.
- 20) Shorelines Casinos in Ontario Canada were completely reorganized after it was discovered the specific location was actually printed in the front bottom right logo on the newer Axis cards so everything was reorganized to list the cards under each of the casinos where they belong.
- 21) Wynn Macau was slightly reorganized to move the room keys that were used as temporary slot cards with player info printed on them as XX issue slot cards.
- 22) **All changes since the 13.2 edition in July 2018 are marked in GREEN.**
- 23) Several Gila River cards that could not be confirmed were removed from the guide, basically what appeared to be presumed higher level cards when a newer lower level card was discovered when in fact the upper level cards from that issue may never have existed. Plus the original 15<sup>th</sup> issue was changed to be the 16<sup>th</sup> issue when a previously unlisted Player Club Emerald card was found that appeared to be issued right before those cards.
- 24) MGM Mlife Military & Veterans cards had to be reorganized to get them correctly grouped based on casinos listed and whether or not the bottom text is indented.
- 25) Diamond level 10<sup>th</sup> issue cards from the Peppermill Casino in Reno, NV were slightly reorganized and one variation was moved to the 9<sup>th</sup> issue.
- 26) Several cards were moved from the One Club cards from Mandalay Bay and now listed under the Circus Circus Reno casino since those cards were specifically for Circus Circus and not multiproperty cards like the other One Club cards. Specifically, the original 39<sup>th</sup> and 43<sup>rd</sup> issues were the cards moved. Additionally, the original 40<sup>th</sup> issue One Club card was really from the Colorado Belle/Edgewater casinos and is now listed under those locations. The remaining 41<sup>st</sup> and 42<sup>nd</sup> issues were then renumbered. When moving the One Club cards to the Circus Circus Reno listing, additional Circus Circus One Club cards recently discovered were also added there. When moving the Colorado Belle/Edgewater card it required renumbering the original cards from the 5<sup>th</sup> issue on to open a spot for the One Club card to be listed where it belongs.
- 27) PT's Entertainment Group was reorganized to help clarify the issues after an another previously unlisted card was found.
- 28) The Casino Nova Scotia listings were originally combined thinking that they shared all of their cards. It was discovered that after the 6<sup>th</sup> issue they started having separate versions of their cards with their own specific phone numbers listed on the back. So the listings were separate and reorganized. Additionally, the original 5<sup>th</sup> issue card was determined to actually be the 1<sup>st</sup> issue card with only barcodes on the reverse and no magnetic stripe. The originally listed 4<sup>th</sup> issue card could never be confirmed and was removed since it was unclear what issue it might really have been. If anyone has that missing card or it's reported later we can always add it back in the listings.
- 29) Casino Mirage in Moscow Russia was reorganized after a new found card was added as a new 1<sup>st</sup> issue, plus unconfirmed cards were removed.

(On obverse, "Teller House Casino Club" has weakness on several letters, almost fading out at the fine tips. The face logo is very dark.)						

Gold (Large Face Logo) None Ex Rare 200 □ CG017918  
 (Raised Printing. Blank Reverse. High Roller card. The three known examples are blanks that were obtained from a former Teller House employee. She thought these were issued shortly before closing, but that is not consistent with this 1<sup>st</sup> issue design - Large Face logo and raised printing. It is possible these were ordered and never actually issued, but that is speculation.)

However, from the time it was ordered to the time it was received by the slot club, upper level management had changed. The new management didn't like the card and decided to destroy the entire shipment. Before that happened, however, employee Jim Kruse asked if he could keep one card and put his name on it as a souvenir. He was allowed to do so. Shortly after, the rest of the shipment was thrown into a wood chipper outside the casino!)

## MONTANA

(NOTE: Non-Indian Montana casinos were very small and cards were very difficult to obtain. As a general rule, most non-Indian casinos did not want to issue cards to non-locals! If you were lucky enough to get one issued, you only got ONE. Most had you fill out an application and return 1-2 weeks later to pick it up. Most of the non-Indian Montana casinos did away with cards and went to a pin

number, or magnetic tab although some are back to using standard slot cards again. Values are based on their previous availability for those casinos that have stopped using cards.)

#### GOLDEN NUGGET (Las Vegas, NV)

Slot Club Opened: 1984 Closed: no

1 <sup>st</sup> Black (Twenty Four Karat Club Banner & Logo)	None	Ex Rare	250	□	CG005280
(This may have been the first Las Vegas slot club card, and therefore is in very high demand. It was like the Mint's set up whereby there was a ticket dispenser attached to dollar machines. The card was more like an ID used to redeem the tickets. Obverse has a Golden Nugget logo on the bottom right corner. On the reverse, there is NO magnetic stripe, only a signature strip across the top. The last paragraph reads: "This card is NON-TRANSFERABLE and is the property of GNLV corp., P.O. Box 610, Las Vegas, Nevada 89125." This card is very similar to the 2 <sup>nd</sup> issue card, except the 3 <sup>rd</sup> line on the reverse begins "24 Karat Club")					
2 <sup>nd</sup> Black (Twenty Four Karat Club Banner & Logo)	None	Ex Rare	200	□	CG005281
(Same as above, except 3 <sup>rd</sup> line on reverse begins "Karat Club", 2 known copies)					
3 <sup>rd</sup> Black (Twenty Four Karat Club Banner)	None	Ex Rare	125	□	CG005282
(Similar to above, but no Golden Nugget logo on obverse. Instead, the obverse has "Good Thru" on the bottom right corner. The reverse has a magnetic stripe across the top. This card is also similar to the Atlantic City card, except on the reverse it says "maybe" instead of "may be" This was corrected on the A.C. cards. Bright gold reverse printing.)

1<sup>st</sup> Reddish Purple ("Payoffs Plus") None Ex Rare 250  CG110166

(Not only is this card extremely rare, 8 known at press time, it is very important because it's Reno's first slot card. We believe the Slot Club opened sometime in late 1986 or early 1987, but closed well before Harolds shut its doors permanently in 1995. A bidding war on Ebay in Spring, 2001 resulted in a then record high bid of \$310 for this slot card.)

XX	Dull "Crinkled" Metallic Orange (\$100 Reel Rewards)	None	Common	1	□	CG062813

(The crinkled metallic cards have a holographic background and appear bright or dull  
 depending on the angle they are viewed. One set of cards will appear bright when viewed  
 at the same angle that the other set appears dull.)

(Here's how "Reel Rewards" worked: When a customer redeems his points for cash, he is given  
 the option of taking double the amount in "Reel Rewards". Since it's a good deal, most people  
 redeem their points this way. The customer is given the Reel Rewards cards and has to play  
 the amount through at least once. Therefore, if he has a \$20 card, he has to gamble \$20 at  
 least once. Whatever is left over can be cashed out.)

(This VIP-type card was never actually used, because management felt that the hot stamp was  
 too delicate and would wear off quickly. A small stack was kept by a Holiday executive in the  
 window of his office. The sun managed to badly warp most of them, except for "about 10  
 cards" that were saved - according to our source.)

(Raised Printing. One blank appeared on the market sometime in early 2002 that came from a former Landmark employee. She only found the one card, despite unfounded rumors to the contrary. That brings the total known pieces in collectors' hands to exactly 3. It is believed that this VIP Gold Card was introduced shortly before the Landmark closed. This card has brought the highest price ever for a slot card: \$1085 on Ebay before the 3<sup>rd</sup> was discovered.)

(NOTE: Before closing, the Landmark ran out of cards. They used a blank silver card and just printed "Landmark" on the obverse. As this was not a manufacturer card, it is no longer listed here as an "officially" collectible card. There was also a blank silver card which said "Landmark Hotel and Casino Wild Card.")

Slot Club Opened: 1987 Closed: 1996

1 <sup>st</sup>	Green (Large Sands Logo – No Picture)	None	Ex Rare	500	□	CG111843
(Green reverse is blank, except for black box. This is one of Las Vegas' earliest machine-read slot cards. This card was used for a very short time in 1987 and is a major rarity today with only 2 confirmed examples.)						
	Green (Large Sands Logo – No Picture)	None	Ex Rare	500	□	CG111844
(Same as above with no black box)						

2 <sup>nd</sup>	Dk Green/Black ("Easy Money" Cartoon Slot)	None	Ex Rare	250	□	CG111845
(Obverse has all black writing. Logo on bottom right is "Sands Las Vegas" in a marquee-type border. Reverse is green with a black box. Only 4-5 cards are known.)						
3 <sup>rd</sup>	Dk Green/Silver ("Easy Money" Cartoon Slot)	None	V Rare	75	□	CG062524
(Obverse has all silver writing. Reverse is white with NO box. Logo on bottom right is "Sands Las Vegas" in a marquee-type border. Cartoon slot machine has a WHITE tongue.)						
4 <sup>th</sup>	Dk Green/Silver ("Easy Money" Cartoon Slot)	None	V Rare+	100	□	CG111846
(Virtually identical to above 3 <sup>rd</sup> issue card, except the cartoon slot machine has a RED tongue. There are also a couple very, very minor font differences. For example, on the second line of the reverse, the exclamation mark is over the "w" instead of the "h" like the 3 <sup>rd</sup> issue. The red tongue version appears to be much rarer than the white tongue and a case might eventually be made that it should be rated Ex Rare.)						
5 <sup>th</sup>	Green ("Easy Money MGM Sands")	None	Ex Rare	200	□	CG111847
(This is the only permanent card from the MGM-Sands Era (1988-89) and is quite rare and desirable. The same basic design with the cartoon slot machine was continued when the Sands dropped the MGM partnership after less than a year.)						
6 <sup>th</sup>	Green ("Easy Money" Lt Brown Cartoon Slot)	None	V Rare	100	□	CG111848
(There are differences in the brown Cartoon Slot known for this card but they are very slight differences and not as noticeably different as with the next issue.)						
(Beginning with this issue, the logo on the bottom right is "Sands Hotel Casino Las Vegas". There is no longer a border around the logo. SMALL registration mark after logo.)						
	Silver ("Easy Money" Lt Brown Cartoon Slot)	None?	Ex Rare	250	□	CG111849
(It is unknown whether this was a high roller card or served some other purpose. Only 1 of these cards has been verified.)

(Above cards are promotional cards given to overnight bus guests. When the cards are placed in the machine, credits are given to the player. Once these credits are played, the card is "no good"

The players tend to leave the cards laying around, which is why these cards are so plentiful. The White card is only worth a dollar. The Blue is the next highest, followed by Lavender, Peach, And Red. Other colors are rarely seen. Note that there are several variations of some colors.

 (These are among the most desirable of Reno cards. Less than 5 "Wrangler" cards have surfaced, and only 2 "Buckaroo Club" cards are currently known. In an earlier Edition these cards were mistakenly reported as issued in the early 1990's, but later received first hand testimony to the contrary from collector Emile Giroux. He was possibly the last person ever to be issued a card in this club as he was there right before they closed in July, 1997. He was exactly the 700<sup>th</sup> person to be issued a permanent Buckaroo Club card. The Virginian was a slot only casino from Dec 1996 to July 1997, when it closed due to a near-complete lack of business!)

### GOLDEN NUGGET - Landry (Atlantic City, NJ)

Slot Club Opened: 2011 Closed: no

(Golden Nugget re-opened in 2011 after Landry Corp. purchased the Trump Marina on the bay. Golden Nugget slot cards originally used the same player numbers as were used by the Trump Marina with the same player# prefixes used on the Trump One cards. Then when they switched to the new generic Golden Nugget 24K Select cards they added another prefix in front of the earlier number so you'll see the two prefixes back to back in the player number. The first 3 digits are the Golden Nugget prefix and the next 3 digits are the Trump One card prefix.)

(These cards are extremely significant in that they were the absolute first actual slot cards whereby play was tracked by the computer. This card was originally tested and used in small town Nevada, specifically Tonopah. Also, the card was used in bar-type establishments. The biggest of these was the location that became Danny's Country Store.)

Many of these cards are ID or roomkey cards that may have also been used in the onboard casino so they are included here to at least have them documented. Casino related cards have the normal issue numbers as found throughout this guide. Cruise Ship ID/roomkey cards have a special designation using CS numbers so they are identified separately.

**RUSSIA**

**All Russian casinos were closed in June 2009 and it is unclear which casinos may have re-opened in the new gambling zones except as noted!**

**Note:** Most cards issued from Russia were not in English. The casinos are listed under the English translation & English letters/numbers where used where possible in the Russian words. **If you can't find the desired casino with "Casino" as the first word in it's name, try checking the same casino with Casino" as the last word in it's name.**

Also note that when the casinos went from embossed player information to printed player information the reverse text was typically moved. Many of these variations may not yet be listed so be aware these may exist!

## UNITED KINGDOM

Many of the cards from early high-end London casinos were "membership" cards and the casinos charged an annual fee. It's just been since the 2005-2010 era that the casinos in the UK started using the more common slot cards for play tracking.

## **APPENDIX C:**

### **Tips for Identifying Russian Slot Cards**

You could just try translating the Russian text using the Google translator with the Russian keyboard. Or on an Android phone you can try using the Google translate application where you view the card through the phone camera while the application tries to translate the text. But these methods can be time consuming and difficult to use, especially with odd fonts.

Another way to identify cards is to use a feature on the ChipGuide website where you can view all the Russian slot card images and try to match your card with one of the listed cards. To use this feature, go to the ChipGuide.com website and select the ChipGuide Query Facility from the menu on the left side. On the ChipGuide Query page, select Europe for the Region, Russian Federation for the State and Players Club (Slot) Cards for the Collectible Type then click the Query button.

The query will display page after page of slot card images (front and back) so you can page through the images and try to match your card with one of the images shown. You can click on any of the images to see a larger view if you need to check details. When you think you've found a matching card you can click on the CG# displayed under the image to get more information on the card and the casino it's from. From that detail page, if you click on the casino name you'll get the full listing for that casino.

If you can't find your card listed under the Russian cards you might want to try checking the Ukraine cards since they are very similar. Or you can try any of the other surrounding countries that use Russian text using the same technique. Just use a similar query and select Ukraine or whatever desired country for the State to see all the card images from that country.
