INTRODUCTION

This is the next quarterly release of this publication and the listings have grown to **over 23,920** slot cards! Unknown and unlisted cards are discovered on a regular basis and the master copy of this guide is a never ending work in progress. The guide includes the CG numbers assigned to each and every slot card as it was entered onto the ChipGuide website. These numbers are also hot links in the electronic copy of the guide so you can click on any CG# and access the pictures of both sides of that particular card. Additional SCG# numbers work similar to the CG#s to access scans of other items from the Slot Card Guide website that were not added on the ChipGuide for whatever reason.

A very handy resource is the Slot Card BBS at www.slotcardbbs.com where you'll be able to connect with other collectors worldwide. I'll be posting news of new cards there regularly so be sure to check it out.

You might also want to check out the **Slot Card & Room Key Club**. Dues are \$5/year. For information on joining, contact David Johnston, 350 E. Desert Inn Rd. Apt. C-202, Las Vegas, NV 89109 or email: slotcardking@aol.com

I'd certainly like to thank all the collectors out there who helped correct mistakes and provided new information plus those submitting scans to the ChipGuide so we can include as much information as possible. Everyone has helped make this resource much better than it would have been. It's impossible for one person to keep up with everything going on, so thanks again for all your help and support.

WHAT'S INCLUDED, WHAT ISN'T AND WHY!

Of course, we had to decide what constitutes a slot card in order to include it in this listing. The term "slot card" has become a generic term for all casino issued cards. Casinos issue cards for many reasons. The primary reason is to track the play of their customers on slot machines, as machines constitute the lion's share of casino business. However, many casinos use their slot cards to track play at the gaming tables. Other casinos issue separate cards for the tables. Occasionally, cards are issued for racebooks, sportsbooks, bingo, etc. Most of the time, these cards are made of plastic - the size and shape of a credit card. Sometimes, cards are made of paper or cardboard and newer RFID player tracking devices resemble key fobs. There may also be some track wagering cards listed under the racetracks.

The first requirement for inclusion in this book is that "slot cards" must be shaped like a card! If it is a booklet or large paper item that doesn't resemble a card shape - then it isn't a "slot card". **Newer RFID type key fobs used for player tracking are now being added after they started to appear in 2015.**

The second requirement for inclusion in this listing is that the "slot cards" should date from 1982 or later. Let us explain. Before 1982, there were casino cards issued as identification for check cashing, credit, and other reasons. However, it was in 1982 that cards were first manufactured for the purpose of tracking actual gaming action with the intent of giving rewards based on play. Legend has it that this brilliant idea came from an unknown executive at the Sands in Atlantic City. Thus began the modern era of slot cards. Early casino cards are great and would be an excellent subject for another book, but they are not listed here.

The third requirement for inclusion in this listing is that the "slot cards" were actually used to track gaming action (machines, tables or other) or were issued for promotional reasons to attract business. In other words, possession of the card must provide the holder with a casino benefit.

Note: There has been much confusion over the white or other colored cards many casinos use when they have run out of current stock. Most often these are embossed with the casino name BY THE CASINO, not the manufacturer. These temporary cards are not considered a new issue and are normally not included in the listings. Occasionally a casino might have used a room key as a temporary slot card and those have been listed where known.

HOW TO USE THIS GUIDE

An explanation of the codes and abbreviations

As you can see by looking at the first column heading, there are 6 different columns which help to identify, describe, and value the cards listed in this book.

The columns are: 1) "Issue", 2) "Predominant Colors/Description, 3) "Mfg.", 4) Rarity, 5) Price and 6) CG# or SCG# -- with a checkbox appearing between the 5th and 6th columns.

What follows is an explanation for each column:

Issue - This column attempts to place all slot cards in chronological order. The earliest is listed first and so on. Cards with "1st", "2nd", etc. are specifically PLASTIC cards used primarily for machine play. **Paper cards are listed after the plastic cards and designated (PC).** There are other paper cards that were used for tracking purposes on games other than slots or tables. **These paper cards are designated with a PCX. All odd paper cards that don't fit the other categories are also placed here.**

Cards that were primarily used for table play are designated as table cards (TC) and placed after the regular issues. The TC designation applies regardless of whether the card is plastic or paper. Table cards are table cards, period. This way, collectors will be able to easily distinguish which cards are table cards, if they wish to collect them separately.

There are some casino-issued plastic cards that were not regular issues used for tracking play. These cards are generally special commemorative issues, tournament cards or promotional in nature - offering some kind of discount or benefit. **These cards are designated (XX). This is the catch-all category where the hard-to-fit cards are placed.**

The ID designation was created for casino hotel ID cards that were primarily used as roomkeys but were also used for casino play tracking. If the casino also had specific slot cards, then those cards are listed with regular issue.

CS designation was created for Cruise Ship ID cards that were also use as roomkeys and possibly in the onboard casinos. Cruise ships that had specific gambling related cards still have their cards listed with the issue numbers used in the past.

In summation, here are the six different card categories:

- 1st issue, etc. = Regular issue slot cards that primarily tracked slot play.
- XX= Plastic casino cards that were not a regular issue slot or table card. Usually promotional in nature.
- TC= Table Card (Any card, usually plastic, that tracked table play only.)
- PC= Paper Card that tracked slot play primarily.
- PCX= Paper Card that was used for anything except tracking slot or table play.
- ID = ID cards primarily used as room keys but also used for tracking casino play
- CS = Cruise Ship ID cards also used as roomkeys and possibly in onboard casinos

Casinos with several issues of Paper or Table cards may be listed in order as PC1, PC2, PC3 or TC1, TC2, TC2 etc.

2) Predominant Colors/Description - This helps to identify the card based on color and design. The important thing to remember here is that the **PREDOMINANT** colors are listed - NOT ALL colors. Also the description is the best attempt to identify the card's design for easy reference. There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

3) "Mfg." - is the manufacturer's or distributor's mark identifying who made the card or possibly the card issue. This could be Faraday, Powercard, PPC, etc. There are only a handful of

different marks to worry about, so this is an excellent way to identify cards quickly. Note that CPICA cards may be listed differently. For example, a "CPICA 23677" may be listed as "CP23677" in order to fit on one line. [This information may be split between the Mftr. and Catalog# fields where shown on the ChipGuide slot card listings.](#)

4) Rarity - This is the best attempt to classify the scarcity/rarity of a given card, based on a consensus of knowledgeable slot card collectors. Some cards may be slightly underrated or overrated. Here's a list of the rarity values and what they mean:

- **Ex Rare** – A premier card that exists in only a few collections.
- **V Rare** – Missing from most collections- less than 25 total cards suspected.
- **Rare** – Very hard to find. Less than 100 cards are presently suspected.
- **V Scarce** – Hard to find, but obtainable. Smaller quantities of cards suspected.
- **Scarce** – Fairly easy to obtainable but limited quantities.
- **Common** – Widely and easily available. Huge quantities are known to exist.

Occasionally, there will be a plus (+) or a minus (-) after the rarity. A plus sign means the card's rarity is almost at the next level. In other words, a Rare+ is almost rare enough to be listed as Very Rare. Conversely, a Rare- means that the card is almost Very Scarce.

Price - is intended to be the typical value of an issued card in excellent condition. (Excellent condition assumes card has very little or no use and no writing or punch holes - if the card comes without holes.) If no actual sales or offers are known, the price is a reasonable prediction based on availability, appeal, location and overall demand. **Blank cards usually sell for a little more than non-blank cards. Very common cards have a value of 0 since their value is less than \$1 typically.**

CG# - is the unique number assigned to that card when it was added onto the ChipGuide website. Clicking on the CG# in the electronic copy of this guide will access the pictures of that card that are stored on the ChipGuide. CG numbers are not necessarily assigned in any particular order. If a particular card is listed in more than one place it will have the same CG# regardless of what casino it appears under. For other cards that could not be added on the ChipGuide, you'll find a **SCG#** that works in a similar fashion but links to scans on the SlotCardGuide.com website.

A few last things –

There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

The term "Raised Printing" means that you can actually FEEL the card's design by rubbing your fingertip gently over the card's surface. Raised Printing makes a card more attractive, but this printing technique is generally found on older cards. Raised Printing is more expensive and makes the card more susceptible to wear. Just to clarify, **RAISED PRINTING DOES NOT REFER TO EMBOSSSED PLAYER NAMES OR ACCOUNT NUMBERS ON A CARD – JUST THE DESIGN ITSELF.** In fact, this guide as a rule does not distinguish between ANY post-manufacturer changes on a card. Any exceptions to this rule will be noted in the guide.

Happy Hunting! Robert Baker

WHERE TO GET COPIES OF THIS GUIDE?

For electronic copies of this publication you can go to the website:

www.slotcardguide.com

where you can download the latest release as well as any previous release you may need to reference. New releases should be available every three months.

In lieu of selling copies as in the past, copies of the guide are now free while donations are appreciated to help cover costs and the efforts to keep this document going. There is a PayPal "DONATE" button on the website where you can donate any amount you feel comfortable contributing to the cause. Note that a portion of all donations received are now shared with the slotcardbbs to help support that effort as well!

Or you can send PayPal donations directly to my email address at:

rbakerpc@gmail.com

If you'd like to donate any slot cards, have some old slot cards you no longer want, or you'd just like to mail a check or money order to contribute, you can reach me by mail at:

Robert Baker
20 Ferro Drive
Sewell, NJ 08080

Hopefully this change in the way the guide is distributed will help to get more people interested in the hobby.

Spread the word and let others know !

IMPORTANT NOTES FOR THIS EDITION

- 1) Wherever older cards were discovered every attempt is usually made to minimize renumbering of existing original entries where possible. In most cases cards are entered as additional variations of existing issues but there may be exceptions.
- 2) **All changes since the 16th edition in January 2021 are marked in RED.** You'll notice that any new casinos that were added will be shown in red in the index also.
- 3) Rivers Casino Pittsburgh, PA was reorganized from the 3rd issue and beyond when another Signature card was discovered with an expiration date that helped pin down the correct issue order.
- 4) Holland Casino in the Netherlands was completely reorganized to correct the issue order and better group the cards.
- 5) **All changes since the 16.1 edition in April 2021 are marked in BLUE.**
- 6) Major changes were made to the slot card listings on the ChipGuide.com website to separate the actual manufacturer name and the manufacturer lot number or other markings shown on a card so what's listed in this guide in the Mfg. column may now be in either the Mfr. or Catalog# fields on the ChipGuide, or even split between the two.

(This is a tiny club that used a barcode system. Virtually no one ever lost a card. The only way
 you could get these higher level cards was to spend months or maybe years playing here as
 employees wand your card every hour or so until you qualify for bigger levels. The slot club
 bosses had stated emphatically that they would not give out any sets to collectors! Only four
 Diamond cards are presently known in collections out of maybe a couple dozen that were ever
 issued. Some cards may exist with the reverse upside down.)

XX	Red ("Very Important Citizen" & Building)	None	Unique	300	□	CG125595

(Raised printing. This is the rarest of all known slot cards - now and forever Unique! This card was intended to be a higher level card. However, from the time it was ordered to the time it was received by the slot club, upper level management had changed. The new management didn't like the card and decided to destroy the entire shipment. Before that happened, however, employee Jim Kruse asked if he could keep one card and put his name on it as a souvenir. He was allowed to do so. Shortly after, the rest of the shipment was thrown into a wood chipper outside the casino!)

MONTANA

(NOTE: Non-Indian Montana casinos were very small and cards were very difficult to obtain. As a general rule, most non-Indian casinos did not want to issue cards to non-locals! If you were lucky enough to get one issued, you only got ONE. Most had you fill out an application and return 1-2 weeks later to pick it up. Most of the non-Indian Montana casinos did away with cards and went to a pin number, or magnetic tab although some are back to using standard slot cards again. Values are based on their previous availability for those casinos that have stopped using cards.)

(There were a large number of Montana slot cards that did not yet have the barcodes printed on the backs when the casinos stopped using cards. Many of those cards were obtained direct from the printer by collectors and were never really used in the casinos so they were not listed in the guide.)

1 st	Reddish Purple ("Payoffs Plus")	None	Ex Rare	250	□	CG110166
-----------------	---------------------------------	------	---------	-----	---	----------

(Not only is this card extremely rare, 8 known at press time, it is very important because it's Reno's first slot card. We believe the Slot Club opened sometime in late 1986 or early 1987, but closed well before Harolds shut its doors permanently in 1995. A bidding war on Ebay in Spring, 2001 resulted in a then record high bid of \$310 for this slot card.)

(Despite these cards being used in Reno also, they are very hard pieces to locate. These cards used the punchboard system and were eventually replaced with the mag stripe cards. One can assume that almost every cardholder that came back to Harrah's either threw out or turned in their "worthless" punchboard reader card.)

(The crinkled metallic cards have a holographic background and appear bright or dull depending on the angle they are viewed. One set of cards will appear bright when viewed at the same angle that the other set appears dull.)

(Here's how "Reel Rewards" worked: When a customer redeems his points for cash, he is given the option of taking double the amount in "Reel Rewards". Since it's a good deal, most people redeem their points this way. The customer is given the Reel Rewards cards and has to play the amount through at least once. Therefore, if he has a \$20 card, he has to gamble \$20 at least once. Whatever is left over can be cashed out.)

("Plastic Print a Card" spelled out on reverse & Phone #1-800-929-1111)

(Blue cards were only issued to high rollers. Though the reverse indicates the card was used on slots and tables, the only known examples are from table play. Several high rolling machine players at the time did not receive these blue cards, but rather the green ones. We know that management felt that the blue color was inconsistent with MGM's color scheme and replaced them with the green cards very quickly, perhaps explaining why other players never got them.)

(This is the toughest card in this series, because it was fairly hard to get to this level, but once there, it wasn't too hard to become a "Trail Boss." At this point, the players would then throw away their "Roper" cards. Therefore, people who didn't play much never got a Roper Card, but those who did play a lot usually became Trail Bosses shortly after.)

Slot Club Opened: 1987 Closed: 1996

1 st	Green (Large Sands Logo – No Picture)	None	Ex Rare	500	□	CG111843
	(Green reverse is blank, except for black box. This is one of Las Vegas' earliest machine-read slot cards. This card was used for a very short time in 1987 and is a major rarity today with only 2 confirmed examples.)					
	Green (Large Sands Logo – No Picture)	None	Ex Rare	500	□	CG111844
	(Same as above with no black box)					
2 nd	Dk Green/Black ("Easy Money" Cartoon Slot)	None	Ex Rare	250	□	CG111845
	(Obverse has all black writing. Logo on bottom right is "Sands Las Vegas" in a marquee-type border. Reverse is green with a black box. Only 4-5 cards are known.)					
3 rd	Dk Green/Silver ("Easy Money" Cartoon Slot)	None	V Rare	75	□	CG062524
	(Obverse has all silver writing. Reverse is white with NO box. Logo on bottom right is "Sands Las Vegas" in a marquee-type border. Cartoon slot machine has a WHITE tongue.)					
4 th	Dk Green/Silver ("Easy Money" Cartoon Slot)	None	V Rare+	100	□	CG111846
	(Virtually identical to above 3 rd issue card, except the cartoon slot machine has a RED tongue. There are also a couple very, very minor font differences. For example, on the second line of the reverse, the exclamation mark is over the "w" instead of the "h" like the 3 rd issue. The red tongue version appears to be much rarer than the white tongue and a case might eventually be made that it should be rated Ex Rare.)					
5 th	Green ("Easy Money MGM Sands")	None	Ex Rare	200	□	CG111847
	(This is the only permanent card from the MGM-Sands Era (1988-89) and is quite rare and desirable. The same basic design with the cartoon slot machine was continued when the Sands dropped the MGM partnership after less than a year.)					

6 th	Green ("Easy Money" Lt Brown Cartoon Slot)	None	V Rare	100	□	CG111848
	(There are differences in the brown Cartoon Slot known for this card but they are very slight differences and not as noticeably different as with the next issue. This issue has a small registration mark after the logo on the bottom right obverse.)					
	(Beginning with this issue, the logo on the bottom right is "Sands Hotel Casino Las Vegas". There is no longer a border around the logo. SMALL registration mark after logo.)					
	Silver ("Easy Money" Lt Brown Cartoon Slot)	None?	Ex Rare	250	□	CG111849
	(It is unknown whether this was a high roller card or served some other purpose. Only 1 of these cards has been verified.)					
7 th	Green ("Easy Money" Dk Brown Cartoon Slot)	Faraday	V Rare	40	□	CG111850
	Green ("Easy Money" Lt Brown Cartoon Slot)	Faraday	V Rare	40	□	CG062526
	(This issue has a large registration mark after the logo on the bottom right obverse.)					
	(Note: Color variations between these cards are very distinct. A solid argument can also be made for a Brown Cartoon Slot, but it is close enough to Lt Brown to satisfy most collectors!)					
8 th	Black ("Sandsational Bonus" – Picture \$100 bill)	Faraday	V Scarce	10	□	CG111851

	Purple ("Sandsational Bonus" Qualifier Card)	PPC	Common	2	□	CG111854
	(PPC Logo on reverse has 3 lines)					
	Black ("Sandsational Bonus" – Picture \$100 bill)	PPC	Common	1	□	CG062527
	Black ("Sandsational Bonus" – no Picture)	PPC	Common	1	□	CG111855
	(On above two cards, PPC Logo on reverse has 3 lines)					
PC1a	Brown ("Easy Money" Introductory & 2 nd issue logo)	None	V Rare	50	□	CG111856
	(Dated 1987, last line in paragraph on reverse is "immediately so a new card can be assigned.")					
PC1b	Grey ("Easy Money" Introductory & 2 nd issue logo)	None	V Rare	50	□	CG199162
	(Dated 1988, last line in paragraph on reverse is "immediately so a new card can be assigned.")					
	Adds EXP DATE in box at bottom lower left.)					
PC2	Grey ("Easy Money" Intro. & MGM-Sands logo)	None	V Rare	35	□	CG111857

PC5	Grey ("Easy Money" Introductory & 6 th issue logo)	None	V Rare	35	□	CG111861
	(Dated 1989 - 1990, says "Renew this card after")					
PC6	Grey ("Easy Money" Introductory & 6 th issue logo)	None	V Rare	35	□	CG111862
	(Dated 1990 - 1992, says "Valid Through")					
	(On PC4-PC6, last line in paragraph on reverse is "so a new card may be assigned.")					
PC7a	Lt Blue ("Easy Money" Introductory & 6 th issue logo)	None	Ex Rare	200	□	CG111863
	(Black box on blue reverse, last line in reverse paragraph is "assigned.")					
PC7b	Lt Blue ("Easy Money" Introductory & 6 th issue logo)	None	Ex Rare	200	□	CG117496
	(Blue box on blue reverse, last line in reverse paragraph is "assigned.")					
PC7c	Lt Blue ("Easy Money" Introductory & 6 th issue logo)	None	Ex Rare	200	□	CG159080
	(Black box on blue reverse, last line in reverse paragraph starts "immediately...")					

(Actually, these cards aren't really a paper card. They feel like a cross between cardboard and plastic. These are typically dated 1990 or 1991 although other dates between 1988 & 1993 have been found. PC5 thru PC7 issue logos are similar to the 6th issue logo but the sun is moved to the right instead of centered.)

PC8	White ("Sands Casino Guest Card" in Green print)	None	V Rare	30	□	CG111864
(This card is laminated)						
PC9	White ("Sands Casino Guest Card" in Red print)	None	V Rare	30	□	CG111865
(Laminated, "g" in "rating" at end of 4 th line on reverse ends under "a" in "cashing")

(Above cards are promotional cards given to overnight bus guests. When the cards are placed in the machine, credits are given to the player. Once these credits are played, the card is "no good" The players tend to leave the cards laying around, which is why these cards are so plentiful. The White card is only worth a dollar. The Blue is the next highest, followed by Lavender, Peach, And Red. Other colors are rarely seen. Note that there are several variations of some colors. The Sundowner started its slot club with the customer list from the Virginian – which it owned.)

In an earlier Edition these cards were mistakenly reported as issued in the early 1990's, but later received first hand testimony to the contrary from collector Emile Giroux. He was possibly the last person ever to be issued a card in this club as he was there right before they closed in July, 1997. He was exactly the 700th person to be issued a permanent Buckaroo Club card. The Virginian was a slot only casino from Dec 1996 to July 1997, when it closed due to a near-complete lack of business!)

GOLDEN NUGGET - Landry (Atlantic City, NJ)

Slot Club Opened: 2011 Closed: no

(Golden Nugget re-opened in 2011 after Landry Corp. purchased the Trump Marina on the bay. Golden Nugget slot cards originally used the same player numbers as were used by the Trump Marina with the same player# prefixes used on the Trump One cards. Then when they switched to the new generic Golden Nugget 24K Select cards they added another prefix in front of the earlier number so you'll see the two prefixes back to back in the player number. The first 3 digits are the Golden Nugget prefix and the next 3 digits are the Trump One card prefix.)

 (These cards are extremely significant in that they were the absolute first actual slot cards whereby play was tracked by the computer. This card was originally tested and used in small town Nevada, specifically Tonopah. Also, the card was used in bar-type establishments. The biggest of these was the location that became Danny's Country Store.)

RUSSIA

All Russian casinos were closed in June 2009 and it is unclear which casinos may have re-opened in the new gambling zones except as noted!

Note: Most cards issued from Russia were not in English. The casinos are listed under the English translation & English letters/numbers where used where possible in the Russian words. **If you can't find the desired casino with “Casino” as the first word in it's name, try checking the same casino with Casino” as the last word in it's name.**

Also note that when the casinos went from embossed player information to printed player information the reverse text was typically moved. Many of these variations may not yet be listed so be aware these may exist!

APPENDIX C:

Tips for Identifying Russian Slot Cards

You could just try translating the Russian text using the Google translator with the Russian keyboard. Or on an Android phone you can try using the Google translate application where you view the card through the phone camera while the application tries to translate the text. But these methods can be time consuming and difficult to use, especially with odd fonts.

Another way to identify cards is to use a feature on the ChipGuide website where you can view all the Russian slot card images and try to match your card with one of the listed cards. To use this feature, go to the ChipGuide.com website and select the ChipGuide Query Facility from the menu on the left side. On the ChipGuide Query page, select Europe for the Region, Russian Federation for the State and Players Club (Slot) Cards for the Collectible Type then click the Query button.

The query will display page after page of slot card images (front and back) so you can page through the images and try to match your card with one of the images shown. You can click on any of the images to see a larger view if you need to check details. When you think you've found a matching card you can click on the CG# displayed under the image to get more information on the card and the casino it's from. From that detail page, if you click on the casino name you'll get the full listing for that casino.

If you can't find your card listed under the Russian cards you might want to try checking the Ukraine cards since they are very similar. Or you can try any of the other surrounding countries that use Russian text using the same technique. Just use a similar query and select Ukraine or whatever desired country for the State to see all the card images from that country.
