INTRODUCTION

This is the next quarterly release of this publication and the listings have grown to **over 23,450** slot cards! Unknown and unlisted cards are discovered on a regular basis and the master copy of this guide is a never ending work in progress. The guide includes the CG numbers assigned to each and every slot card as it was entered onto the ChipGuide website. These numbers are also hot links in the electronic copy of the guide so you can click on any CG# and access the pictures of both sides of that particular card. Additional SCG# numbers work similar to the CG#s to access scans of other items from the Slot Card Guide website that were not added on the ChipGuide for whatever reason.

A very handy resource is the Slot Card BBS at www.slotcardbbs.com where you'll be able to connect with other collectors worldwide. I'll be posting news of new cards there regularly so be sure to check it out.

You might also want to check out the **Slot Card & Room Key Club**. Dues are \$5/year. For information on joining, contact David Johnston, 350 E. Desert Inn Rd. Apt. C-202, Las Vegas, NV 89109 or email: slotcardking@aol.com

I'd certainly like to thank all the collectors out there who helped correct mistakes and provided new information plus those submitting scans to the ChipGuide so we can include as much information as possible. Everyone has helped make this resource much better than it would have been. It's impossible for one person to keep up with everything going on, so thanks again for all your help and support.

WHAT'S INCLUDED, WHAT ISN'T AND WHY!

Of course, we had to decide what constitutes a slot card in order to include it in this listing. The term "slot card" has become a generic term for all casino issued cards. Casinos issue cards for many reasons. The primary reason is to track the play of their customers on slot machines, as machines constitute the lion's share of casino business. However, many casinos use their slot cards to track play at the gaming tables. Other casinos issue separate cards for the tables. Occasionally, cards are issued for racebooks, sportsbooks, bingo, etc. Most of the time, these cards are made of plastic - the size and shape of a credit card. Sometimes, cards are made of paper or cardboard and newer RFID player tracking devices resemble key fobs. There may also be some track wagering cards listed under the racetracks.

The first requirement for inclusion in this book is that "slot cards" must be shaped like a card! If it is a booklet or large paper item that doesn't resemble a card shape - then it isn't a "slot card". **Newer RFID type key fobs used for player tracking are now being added after they started to appear in 2015.**

The second requirement for inclusion in this listing is that the "slot cards" should date from 1982 or later. Let us explain. Before 1982, there were casino cards issued as identification for check cashing, credit, and other reasons. However, it was in 1982 that cards were first manufactured for the purpose of tracking actual gaming action with the intent of giving rewards based on play. Legend has it that this brilliant idea came from an unknown executive at the Sands in Atlantic City. Thus began the modern era of slot cards. Early casino cards are great and would be an excellent subject for another book, but they are not listed here.

The third requirement for inclusion in this listing is that the "slot cards" were actually used to track gaming action (machines, tables or other) or were issued for promotional reasons to attract business. In other words, possession of the card must provide the holder with a casino benefit.

Note: There has been much confusion over the white or other colored cards many casinos use when they have run out of current stock. Most often these are embossed with the casino name BY THE CASINO, not the manufacturer. These temporary cards are not considered a new issue and are normally not included in the listings. Occasionally a casino might have used a room key as a temporary slot card and those have been listed where known.

HOW TO USE THIS GUIDE

An explanation of the codes and abbreviations

As you can see by looking at the first column heading, there are 6 different columns which help to identify, describe, and value the cards listed in this book.

The columns are: 1) "Issue", 2) "Predominant Colors/Description, 3) "Mfg.", 4) Rarity, 5) Price and 6) CG# or SCG# -- with a checkbox appearing between the 5th and 6th columns.

What follows is an explanation for each column:

Issue - This column attempts to place all slot cards in chronological order. The earliest is listed first and so on. Cards with "1st", "2nd", etc. are specifically PLASTIC cards used primarily for machine play. **Paper cards are listed after the plastic cards and designated (PC).** There are other paper cards that were used for tracking purposes on games other than slots or tables. **These paper cards are designated with a PCX. All odd paper cards that don't fit the other categories are also placed here.**

Cards that were primarily used for table play are designated as table cards (TC) and placed after the regular issues. The TC designation applies regardless of whether the card is plastic or paper. Table cards are table cards, period. This way, collectors will be able to easily distinguish which cards are table cards, if they wish to collect them separately.

There are some casino-issued plastic cards that were not regular issues used for tracking play. These cards are generally special commemorative issues, tournament cards or promotional in nature - offering some kind of discount or benefit. **These cards are designated (XX). This is the catch-all category where the hard-to-fit cards are placed.**

Starting with this issue, a new CS designation was created for Cruise Ship ID cards that were also use as roomkeys and possibly in the onboard casinos. Cruise ships that had specific gambling related cards still have their cards listed with the issue numbers used in the past.

In summation, here are the six different card categories:

- **1st issue, etc. = Regular issue slot cards that primarily tracked slot play.**
- **XX= Plastic casino cards that were not a regular issue slot or table card. Usually promotional in nature.**
- **TC= Table Card (Any card, usually plastic, that tracked table play only.)**
- **PC= Paper Card that tracked slot play primarily.**
- **PCX= Paper Card that was used for anything except tracking slot or table play.**
- **CS = Cruise Ship ID cards also used as roomkeys and possibly in onboard casinos**

Casinos with several issues of Paper or Table cards may be listed in order as PC1, PC2, PC3 or TC1, TC2, TC2 etc.

2) Predominant Colors/Description - This helps to identify the card based on color and design. The important thing to remember here is that the **PREDOMINANT** colors are listed - NOT ALL colors. Also the description is our best attempt to identify the card's design for easy reference. There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

3) "Mfg." - is the manufacturer's or distributor's mark identifying who made the card or possibly the card issue. This could be Faraday, Powercard, PPC, etc. There are only a handful of different marks to worry about, so this is an excellent way to identify cards quickly. Note that CPICA cards may be listed differently. For example, a "CPICA 23677" may be listed as "CP23677" in order to fit on one line.

4) Rarity - This is the best attempt to classify the scarcity/rarity of a given card, based on a consensus of knowledgeable slot card collectors. Some cards may be slightly underrated or overrated. Here's a list of the rarity values and what they mean:

- **Ex Rare - A premier card that exists in only a few collections.**
- **V Rare - Missing from most collections- less than 25 total cards are known or suspected.**
- **Rare - Very hard to find. Less than 100 cards are presently known or suspected.**
- **V Scarce - Hard to find, but obtainable. A few hundred cards are known or suspected.**
- **Scarce - Obsolete, but obtainable. About 1000 cards probably still exist.**
- **Common - Widely and easily available. Huge quantities are known to exist.**

Occasionally, there will be a plus (+) or a minus (-) after the rarity. A plus sign means that the card's rarity is almost at the next level. In other words, a Rare+ is almost rare enough to be listed as Very Rare. Conversely, a Rare- means that the card is almost Very Scarce.

Hard to get current cards (usually higher level cards) are sometimes Scarce, Very Scarce, Rare, etc.

Price - is intended to be the typical value of an issued card in excellent condition. (Excellent condition assumes card has very little or no use and no writing or punch holes - if the card comes without holes.) If no actual sales or offers are known, the price is a reasonable prediction based on availability, appeal, location and overall demand. **Blank cards usually sell for a little more than non-blank cards. Very common cards have a value of 0 since their value is less than \$1 typically.**

CG# - is the unique number assigned to that card when it was added onto the ChipGuide website. Clicking on the CG# in the electronic copy of this guide will access the pictures of that card that are stored on the ChipGuide. CG numbers are not necessarily assigned in any particular order. If a particular card is listed in more than one place it will have the same CG# regardless of what casino it appears under. For other cards that could not be added on the ChipGuide, you'll find a **SCG#** that works in a similar fashion but links to scans on the SlotCardGuide.com website.

A few last things –

There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

The term "Raised Printing" means that you can actually FEEL the card's design by rubbing your fingertip gently over the card's surface. Raised Printing makes a card more attractive, but this printing technique is generally found on older cards. Raised Printing is more expensive and makes the card more susceptible to wear. Just to clarify, **RAISED PRINTING DOES NOT REFER TO EMBOSSED PLAYER NAMES OR ACCOUNT NUMBERS ON A CARD – JUST THE DESIGN ITSELF.** In fact, this guide as a rule does not distinguish between ANY post-manufacturer changes on a card. Any exceptions to this rule will be noted in the guide.

Happy Hunting! Robert Baker

WHERE TO GET COPIES OF THIS GUIDE?

For electronic copies of this publication you can go to the website:

www.slotcardguide.com

where you can download the latest release as well as any previous release you may need to reference. New releases should be available every three months.

In lieu of selling copies as in the past, copies of the guide are now free while donations are appreciated to help cover costs and the efforts to keep this document going. There is a PayPal "DONATE" button on the website where you can donate any amount you feel comfortable contributing to the cause. Note that a portion of all donations received are now shared with the slotcardbbs to help support that effort as well!

Or you can send PayPal donations directly to my email address at:

rbakerpc@gmail.com

If you'd like to donate any slot cards, have some old slot cards you no longer want, or you'd just like to mail a check or money order to contribute, you can reach me by mail at:

Robert Baker
20 Ferro Drive
Sewell, NJ 08080

Hopefully this change in the way the guide is distributed will help to get more people interested in the hobby.

Spread the word and let others know !

IMPORTANT NOTES FOR THIS EDITION

- 1) Wherever older cards were discovered every attempt is usually made to minimize renumbering of existing original entries where possible. In most cases cards are entered as additional variations of existing issues but there may be exceptions.
- 2) **All changes since the 15th edition in January 2020 are marked in RED.** You'll notice that any new casinos that were added will be shown in red in the index also.
- 3) ***** It was discovered that the hyperlinks for all casino names or any countries, states or provinces were linking to the an older version of the ChipGuide website and the latest information was not being displayed! This has been fixed in this release so the hyperlinks should now take you to the correct display for each link. This could have been a major issue when clicking on a particular casino name where the information for each item may not have been complete or correct!**
- 4) Potawatomi Casino Milwaukee, WI 7th issue cards were reorganized to separate the cards with a registration mark after Fire Keeper's Club as the 7a issue and those with a service mark after Fire Keeper's Club as the 7b issue after additional cards were discovered with the 2007 copyright date. Additionally, the Platinum card with no copyright date that was originally listed in the 7th issue was moved to the 6th issue after additional cards were discovered with earlier expiration dates indicating that card was earlier than the 2007 copyright cards.
- 5) A new 1st issue Nevada Landing card was found so the original issues all had to be renumbered.
- 6) Two variations of the original TC2 Ramada Express Preferred Passengers table card were discovered – one with raised print and one with normal print, both with PPC and patent#. Thus the TC cards were renumbered after the new variation was added.
- 7) The resort ID cards from Atlantis Casino in the Bahamas were reorganized after new cards were discovered that helped clear up the correct issue order. Note that these cards are listed as room keys on the ChipGuide and have the IDxx identifiers in this guide.
- 8) **All changes since the 15.1 edition in April 2020 are marked in BLUE.**
- 9) Two new Harrah's player number prefixes were identified and added to the chart in the appendix (163 for Northern California and 171 for Cherokee Valley NC)
- 10) The Big "M" Casino was relocated from Florida to South Carolina after the 5th issue lost cards so the listings were split and a new South Carolina entry created. Additionally, a new card was discovered that would have been used between the original 5th and 6th issue cards so all the South Carolina cards were renumbered.

- 11) Casino Magic in Bay St. Louis, MS was reorganized with the original 2nd and 5th issue cards removed since they have never really been found plus the 1st and 2nd issues appeared to actually be the same card. The descriptions for the last listed cards were changed to make it easier to understand the differences using an actual measurement that is easy to see.
- 12) Under Grand Victoria Casino in Elgin, IN all the Morning Club cards were reorganized and expanded with the Valid Thru or Expiration dates added since they were actually printed by the card manufacturer and some of the card designs or layouts were slightly different with those different dates. All known dates have now been documented.
- 13) Under Horizon Casino Lake Tahoe the Advantage level card listings in issues 6, 7 and 8 were expanded to document the various expiration dates known as those dates were printed by the card manufacturer.
- 14) **All changes since the 15.2 edition in July 2020 are marked in GREEN.**
- 15) Casino Apache and Inn of the Mountain Gods in New Mexico were reorganized. Only the 1st issue card was actually from the Casino Apache and was only used at that location. All the following cards were from the Casino Apache Travel Center and shared with the Inn of the Mountain Gods Casino so the listings were reorganized to get them correctly listed.
- 16) Crystal Park Casino listings in California were split up with several cards now listed under "New Crystal Park Casino" to better document the various names used by the casino and to match recent ChipGuide changes.
- 17) Island View in Gulfport, MS was reorganized with all cards copyright 2012 and later consolidated. They are no longer listed based on "Valid Thru" dates that were apparently printed by the casino.
- 18) Lady Luck 4th and 5th issue cards were slightly reorganized when it was discovered one red card (CG132834) was out of place while adding a new found grey card.
- 19) Quechan Casino in Winterhaven, CA was reorganized after finding a few new cards that needed to be added and discovering a few existing cards were out of order.
- 20) Last few issues under San Manuel Casino in Highland, CA were reorganized to fix a card that was listed incorrectly. Early bingo card descriptions were updated with more details to better distinguish between cards when another card was added.
- 21) Merit Casinos in Cyprus had to be reorganized after a card from 2015 was recently discovered and needed to be added as a new 3rd issue card. All following card issues were renumbered.
- 22) **All changes since the 15.3 edition in October 2020 are marked in PURPLE.**
- 23) Carsars Rewards Local cards issued after the Eldorado and Caesars merger in 2020 were originally listed under the Eldorado Casino in Reno, NV but were moved in this release so they are now listed as special issue (XX68) cards under the generic Harrah's/Caesars listings after they were discovered at additional locations besides the Eldorado Casino in Reno.
- 24) Under Silver Star Casino in Philadelphia, MS the original 6th and 7th issue navy Players Club cards were combined into one issue and the following 8th issue renumbered as the 7th issue. There were way too many color variations of those cards to just pick two colors and say they were different issues when they are just several of many color variations.
- 25) Trump Plaza in Atlantic City, NJ had two color variations of the 16th issue card that were consolidated leaving a single listing for The Trump Card with Innovative. There are too many color variations of those cards to just pick two colors and say they are different issues when they are just several of many color variations.
- 26) Several cards listed under the Conrad International were really from the the Casino Enjoy so the 4th through 6th issue cards originally listed under Conrad were moved to the new listing for Casino Enjoy 1st through 3rd issues.
- 27) Under the United Kingdom, the London Park Tower Casino was merged with the Park Tower Casino to keep in sync with changes made on the ChipGuide.
- 28) Under the Russian listings, Casino Barhat was changed to Casino Velvet, the English translation to stay in sync with changes on the ChipGuide.

MONTANA

(NOTE: Non-Indian Montana casinos were very small and cards were very difficult to obtain. As a general rule, most non-Indian casinos did not want to issue cards to non-locals! If you were lucky enough to get one issued, you only got ONE. Most had you fill out an application and return 1-2 weeks later to pick it up. Most of the non-Indian Montana casinos did away with cards and went to a pin number, or magnetic tab although some are back to using standard slot cards again. Values are based on their previous availability for those casinos that have stopped using cards.)

(There were a large number of Montana slot cards that did not yet have the barcodes printed on the backs when the casinos stopped using cards. Many of those cards were obtained direct from the printer by collectors and were never really used in the casinos so they were not listed in the guide.)

1st Black (Twenty Four Karat Club Banner & Logo) None Ex Rare 250 □ CG005280
 (This may have been the first Las Vegas slot club card, and therefore is in very high demand. It was like the Mint's set up whereby there was a ticket dispenser attached to dollar machines. The card was more like an ID used to redeem the tickets. Obverse has a Golden Nugget logo on the bottom right corner. On the reverse, there is NO magnetic stripe, only a signature strip across the top. The last paragraph reads: "This card is NON-TRANSFERABLE and is the property of GNLV corp., P.O. Box 610, Las Vegas, Nevada 89125." This card is very similar to the 2nd issue card, except the 3rd line on the reverse begins "24 Karat Club")

HAROLDS CLUB (Reno, NV)

Slot Club Opened: c.1987 Closed: c.1991

1 st	Reddish Purple ("Payoffs Plus")	None	Ex Rare	250	□	CG110166
(Not only is this card extremely rare, 8 known at press time, it is very important because it's Reno's first slot card. We believe the Slot Club opened sometime in late 1986 or early 1987, but closed well before Harolds shut its doors permanently in 1995. A bidding war on Ebay in Spring, 2001 resulted in a then record high bid of \$310 for this slot card.)

(The crinkled metallic cards have a holographic background and appear bright or dull depending on the angle they are viewed. One set of cards will appear bright when viewed at the same angle that the other set appears dull.)

(Here's how "Reel Rewards" worked: When a customer redeems his points for cash, he is given the option of taking double the amount in "Reel Rewards". Since it's a good deal, most people redeem their points this way. The customer is given the Reel Rewards cards and has to play the amount through at least once. Therefore, if he has a \$20 card, he has to gamble \$20 at least once. Whatever is left over can be cashed out.)

(Blue cards were only issued to high rollers. Though the reverse indicates the card was used on slots and tables, the only known examples are from table play. Several high rolling machine players at the time did not receive these blue cards, but rather the green ones. We know that management felt that the blue color was inconsistent with MGM's color scheme and replaced them with the green cards very quickly, perhaps explaining why other players never got them.)

SANDS (Las Vegas, NV)

Slot Club Opened: 1987 Closed: 1996

1st Green (Large Sands Logo – No Picture) None Ex Rare 500 □ CG111843
(Green reverse is blank, except for black box. This is one of Las Vegas' earliest machine-read slot cards. This card was used for a very short time in 1987 and is a major rarity today with only 2 confirmed examples.)

Green (Large Sands Logo – No Picture) None Ex Rare 500 □ CG111844
(Same as above with no black box)

2nd Dk Green/Black ("Easy Money" Cartoon Slot) None Ex Rare 250 □ CG111845
(Obverse has all black writing. Logo on bottom right is "Sands Las Vegas" in a marquee-type border. Reverse is green with a black box. Only 4-5 cards are known.)

3rd Dk Green/Silver ("Easy Money" Cartoon Slot) None V Rare 75 □ CG062524
(Obverse has all silver writing. Reverse is white with NO box. Logo on bottom right is "Sands Las Vegas" in a marquee-type border. Cartoon slot machine has a WHITE tongue.)

4th Dk Green/Silver ("Easy Money" Cartoon Slot) None V Rare+ 100 □ CG111846
(Virtually identical to above 3rd issue card, except the cartoon slot machine has a **RED tongue**. There are also a couple very, very minor font differences. For example, on the second line of the reverse, the exclamation mark is over the "w" instead of the "h" like the 3rd issue. The red tongue version appears to be much rarer than the white tongue and a case might eventually be made that it should be rated Ex Rare.)

5th Green ("Easy Money" MGM Sands") None Ex Rare 200 □ CG111847
(This is the only permanent card from the MGM-Sands Era (1988-89) and is quite rare and desirable. The same basic design with the cartoon slot machine was continued when the Sands dropped the MGM partnership after less than a year.)

6th Green ("Easy Money" Lt Brown Cartoon Slot) None V Rare 100 □ CG111848
(There are differences in the brown Cartoon Slot known for this card but they are very slight differences and not as noticeably different as with the next issue. **This issue has a small registration mark after the logo on the bottom right obverse.**)

(Beginning with this issue, the logo on the bottom right is "Sands Hotel Casino Las Vegas". There is no longer a border around the logo. SMALL registration mark after logo.)

Silver ("Easy Money" Lt Brown Cartoon Slot) None? Ex Rare 250 □ CG111849
(It is unknown whether this was a high roller card or served some other purpose. Only 1 of these cards has been verified.)

7th Green ("Easy Money" Dk Brown Cartoon Slot) Faraday V Rare 40 □ CG111850
Green ("Easy Money" Lt Brown Cartoon Slot) Faraday V Rare 40 □ CG062526
(This issue has a large registration mark after the logo on the bottom right obverse.)

(Note: Color variations between these cards are very distinct. A solid argument can also be made for a Brown Cartoon Slot, but it is close enough to Lt Brown to satisfy most collectors!)

PC7c Lt Blue ("Easy Money" Introductory & 6th issue logo) None Ex Rare 200 □ CG159080
(Black box on blue reverse, last line in reverse paragraph starts "immediately...")

(Actually, these cards aren't really a paper card. They feel like a cross between cardboard and plastic.

These are typically dated 1990 or 1991 although other dates between 1988 & 1993 have been found.

PC5 thru PC7 issue logos are similar to the 6th issue logo but the sun is moved to the right instead of centered.)

(Above cards are promotional cards given to overnight bus guests. When the cards are placed in the machine, credits are given to the player. Once these credits are played, the card is "no good" The players tend to leave the cards laying around, which is why these cards are so plentiful. The White card is only worth a dollar. The Blue is the next highest, followed by Lavender, Peach, And Red. Other colors are rarely seen. Note that there are several variations of some colors. The Sundowner started its slot club with the customer list from the Virginian – which it owned.)

(These are among the most desirable of Reno cards. Less than 5 “Wrangler” cards have surfaced, and only 2 “Buckaroo Club” cards are currently known. In an earlier Edition these cards were mistakenly reported as issued in the early 1990's, but later received first hand testimony to the contrary from collector Emile Giroux. He was possibly the last person ever to be issued a card in this club as he was there right before they closed in July, 1997. He was exactly the 700th person to be issued a permanent Buckaroo Club card. The Virginian was a slot only casino from Dec 1996 to July 1997, when it closed due to a near-complete lack of business!)

GOLDEN NUGGET - Landry (Atlantic City, NJ)

Slot Club Opened: 2011 Closed: no

(Golden Nugget re-opened in 2011 after Landry Corp. purchased the Trump Marina on the bay. Golden Nugget slot cards originally used the same player numbers as were used by the Trump Marina with the same player# prefixes used on the Trump One cards. Then when they switched to the new generic Golden Nugget 24K Select cards they added another prefix in front of the earlier number so you'll see the two prefixes back to back in the player number. The first 3 digits are the Golden Nugget prefix and the next 3 digits are the Trump One card prefix.)

(These cards are extremely significant in that they were the absolute first actual slot cards whereby play was tracked by the computer. This card was originally tested and used in small town Nevada, specifically Tonopah. Also, the card was used in bar-type establishments. The biggest of these was the location that became Danny's Country Store.)

CRUISE SHIPS

Many of these cards are ID or roomkey cards that may have also been used in the onboard casino so they are included here to at least have them documented. Casino related cards have the normal issue numbers as found throughout this guide. Cruise Ship ID/roomkey cards have a special designation using CS numbers so they are identified separately.

The casinos are listed under the English translation & English letters/numbers where used where possible in the Russian words. **If you can't find the desired casino with "Casino" as the first word in it's name, try checking the same casino with "Casino" as the last word in it's name.**

Also note that when the casinos went from embossed player information to printed player information the reverse text was typically moved. Many of these variations may not yet be listed so be aware these may exist!

APPENDIX C:

Tips for Identifying Russian Slot Cards

You could just try translating the Russian text using the Google translator with the Russian keyboard. Or on an Android phone you can try using the Google translate application where you view the card through the phone camera while the application tries to translate the text. But these methods can be time consuming and difficult to use, especially with odd fonts.

Another way to identify cards is to use a feature on the ChipGuide website where you can view all the Russian slot card images and try to match your card with one of the listed cards. To use this feature, go to the ChipGuide.com website and select the ChipGuide Query Facility from the menu on the left side. On the ChipGuide Query page, select Europe for the Region, Russian Federation for the State and Players Club (Slot) Cards for the Collectible Type then click the Query button.

The query will display page after page of slot card images (front and back) so you can page through the images and try to match your card with one of the images shown. You can click on any of the images to see a larger view if you need to check details. When you think you've found a matching card you can click on the CG# displayed under the image to get more information on the card and the casino it's from. From that detail page, if you click on the casino name you'll get the full listing for that casino.

If you can't find your card listed under the Russian cards you might want to try checking the Ukraine cards since they are very similar. Or you can try any of the other surrounding countries that use Russian text using the same technique. Just use a similar query and select Ukraine or whatever desired country for the State to see all the card images from that country.
