## INTRODUCTION

This is the eighth edition and the listings have grown to over 12,400 slot cards! Unknown and unlisted cards are discovered on a regular basis and keep me on my toes. There is a slot card newsletter that helps keep everyone up to date with slot card news and current card issues: **MSOCK** (Mystic Society of Cards and Keys). Membership is inexpensive and worthwhile. **To join MSOCK, write to Don Phillips, 520 Charles Street, Brookhaven, MS 39601-4042.** Another very handy resource is the Slot Card BBS at [www.slotcardbbs.com](http://www.slotcardbbs.com) where you'll be able to connect with other collectors worldwide.

You might also want to check out the **Slot Card & Room Key Club**. Dues are \$5/year. For information on joining, contact David Johnston, 350 E. Desert Inn Rd. Apt. C-202, Las Vegas, NV 89109 or email: [slotcardking@aol.com](mailto:slotcardking@aol.com)

I'd certainly like to thank all the collectors out there who corrected mistakes and provided new information. You have helped make this book much better than it would have been. It's impossible for one person to keep up with everything going on, so thanks again for all your help and support.

## WHAT'S INCLUDED, WHAT ISN'T AND WHY!

Of course, we had to decide what constitutes a slot card in order to include it in this book. The term "slot card" has become a generic term for all casino issued cards. Casinos issue cards for many reasons. The primary reason is to track the play of their customers on slot machines, as machines constitute the lion's share of casino business. However, many casinos use their slot cards to track play at the gaming tables. Other casinos issue separate cards for the tables. Occasionally, cards are issued for racebooks, sportsbooks, bingo, etc. Most of the time, these cards are made of plastic - the size and shape of a credit card. Sometimes, cards are made of paper or cardboard.

**The first requirement for inclusion in this book is that "slot cards" must be shaped like a card!** If it is a booklet or large paper item that doesn't resemble a card shape - then it isn't a "slot card". Yes, the item may have been used to track slot or table play, but if it isn't a card, it normally won't be listed here. **Slightly oversized cards may be listed, but odd, irregular ones are not.**

**The second requirement for inclusion in this book is that the "slot cards" must date from 1982 or later.** Let us explain. Before 1982, there were casino cards issued as identification for check cashing, credit, and other reasons. However, it was in 1982 that cards were first manufactured for the purpose of tracking actual gaming action with the intent of giving rewards based on play. Legend has it that this brilliant idea came from an unknown executive at the Sands in Atlantic City. Thus began the modern era of slot cards. Early casino cards are great and would be an excellent subject for another book, but they are not listed here.

**The third requirement for inclusion in this book is that the "slot cards" were actually used to track gaming action (machines, tables or other) or were issued for promotional reasons to attract business. In other words, possession of the card must provide the holder with a casino benefit.**

**Note: There has been much confusion over the white or other colored cards many casinos use when they have run out of current stock. Most often these are embossed with the casino name BY THE CASINO, not the manufacturer. These temporary cards are not considered a new issue and are normally not included in the listings.**

## HOW TO USE THIS BOOK

### An explanation of the codes and abbreviations

**As you can see by looking at the first column heading, there are 5 different columns which help to identify, describe, and value the cards listed in this book.**

**The columns are: 1) "Issue", 2) "Predominant Colors/Description, 3) "Mfg.", 4) Rarity and 5) Price**

### What follows is an explanation for each column:

**Issue** - This column attempts to place all slot cards in chronological order. The earliest is listed first and so on. Cards with "1<sup>st</sup>", "2<sup>nd</sup>", etc. are specifically PLASTIC cards used primarily for machine play. **Paper cards are listed after the plastic cards and designated (PC).** There are other paper cards that were used for tracking purposes on games other than slots or tables. **These paper cards are designated with a PCX. All odd paper cards that don't fit the other categories are also placed here.**

**Cards that were primarily used for table play are designated as table cards (TC)** and placed after the regular issues. The TC designation applies regardless of whether the card is plastic or paper. Table cards are table cards, period. This way, collectors will be able to easily distinguish which cards are table cards, if they wish to collect them separately.

Finally, there are some casino-issued plastic cards that were not regular issues used for tracking play. These cards are generally special commemorative issues, tournament cards or promotional in nature - offering some kind of discount or benefit. **These cards are designated (XX). This is the catch-all category where the hard-to-fit cards are placed.**

**In summation, here are the five different card categories in the usual order listed:**

- **1<sup>st</sup> issue, etc. = Regular issue slot cards that primarily tracked slot play.**
- **XX= Plastic casino cards that were not a regular issue slot or table card. Usually promotional in nature.**
- **TC= Table Card (Any card, usually plastic, that tracked table play only.)**
- **PC= Paper Card that tracked slot play primarily.**
- **PCX= Paper Card that was used for anything except tracking slot or table play.**

Casinos with several issues of Paper or Table cards may be listed in order as PC1, PC2, PC3 or TC1, TC2, TC2 etc.

**2) Predominant Colors/Description** - This helps to identify the card based on color and design. The important thing to remember here is that the **PREDOMINANT** colors are listed - NOT ALL colors. Also the description is our best attempt to identify the card's design for easy reference. There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

**3) "Mfg."** - is the manufacturer's or distributor's mark identifying who made the card or possibly the card issue. This could be Faraday, Powercard, PPC, etc. There are only a handful of different marks to worry about, so this is an excellent way to identify cards quickly. Note that CPICA cards may be listed differently. For example, a "CPICA 23677" may be listed as "CP23677" in order to fit on one line.

**4) Rarity** - is exactly what you think it is! This is our best attempt to classify the scarcity/rarity of a given card, based on a consensus of knowledgeable slot card collectors at present time. Some cards may be slightly underrated or overrated, but the overall

accuracy should please the vast majority of collectors. Here is a list of all the rarity values and what they mean:

- **Ex Rare - A premier card that exists in only a few collections.**
- **V Rare - Missing from most collections- less than 25 total cards are known or suspected.**
- **Rare - Very hard to find. Less than 100 cards are presently known or suspected.**
- **V Scarce - Hard to find, but obtainable. A few hundred cards are known or suspected.**
- **Scarce - Obsolete, but obtainable. About 1000 cards probably still exist.**
- **Common - Widely and easily available. Huge quantities are known to exist.**

Note: Current cards have an asterisk (\*) after the rarity rating. For example: Common\*

**Occasionally, there will be a plus (+) or a minus (-) after the rarity. A plus sign means that the card's rarity is almost at the next level. In other words, a Rare+ is almost rare enough to be listed as Very Rare. Conversely, a Rare- means that the card is almost Very Scarce.**

**Hard to get current cards (usually higher level cards) are sometimes Scarce, Very Scarce, Rare, etc. The asterisk (\*) lets you know they are still available where known.**

**Price** - is intended to be the typical value of an issued card in excellent condition. (Excellent condition assumes card has very little or no use and no writing or punch holes - if the card comes without holes.) If no actual sales or offers are known, the price is a reasonable prediction based on availability, appeal, location and overall demand. **Blank cards usually sell for a little more than non-blank cards. Very common cards have a value of 0 since their value is less than \$1 typically.**

**A few last things –**

There may be additional comments under a given card, or comments for a group of cards in the same issue to provide additional information to help identify the specific card(s).

The term "Raised Printing" means that you can actually FEEL the card's design by rubbing you fingertip gently over the card's surface. Raised Printing makes a card more attractive, but this printing technique is generally found on older cards. Raised Printing is more expensive and makes the card more susceptible to wear. Just to clarify, RAISED PRINTING DOES NOT REFER TO EMBOSSED PLAYER NAMES OR ACCOUNT NUMBERS ON A CARD – JUST THE DESIGN ITSELF. In fact, this price guide as a rule does not distinguish between ANY post-manufacturer changes on a card. Any exceptions to this rule will be noted in the book.

***Happy Hunting!***

## IMPORTANT NOTES FOR THIS EDITION

- 1) Note that the guide was completely reformatted to allow automatic generation of the index and page formatting. This requires using the PRINT VIEW within Microsoft Word to properly view the correctly formatted pages when using the electronic copy of the guide. Overall, the guide should look almost identical to previous versions with very slight differences.
- 2) All entries in the guide were completely reviewed and descriptions were added or improved wherever it was determined it would assist in better identifying the cards. Some sections were completely reorganized where deemed necessary, such as the Harrah's Universal cards. The review process was done in conjunction with merging several recent acquisitions with my own collection while comparing every card in the various collections. A large number of new or missing issues were discovered while doing this massive review!
- 3) Wherever older cards were discovered that logically fit between earlier listings, the issue numbers were renumbered when necessary to make the listings correct. Every attempt will be made in future editions to minimize this renumbering wherever possible but it was considered necessary this time in conjunction with the complete review of everything.
- 4) The casino order in some sections was changed to make the sort order more logical now that the index is being generated automatically. Most noticeable are any casino names starting with "The..." are now listed in alphabetical order using the next following word in the casino name with "The" indicated at the end, for example "The Duck Inn" would now appear as "Duck Inn, The" in the D's instead of the T's.
- 5) There were a number of cross references added throughout the guide to help direct users to the correct entries where there are multiple locations, name changes, etc. These cross references appear throughout the listings and in the index.
- 6) All Russian cards were re-translated and their entries updated accordingly. Additionally, the values for all Russian cards were increased slightly to a \$10 minimum with the closing of all Russian casinos in 2009. If you have troubles locating a casino in the Russian section that has "Casino" in it's name, try looking for both "Casino Name" and "Name Casino" as it could be listed either way.

Slot Club Opened: 1989 Closed: 1990

1 <sup>st</sup>	Silver ("Wild Card. Landmark's Festival Place".)	None	Rare	30	□
-----------------	--	------	------	----	---

(This was a tiny hole-in-the wall slot club. Relatively few cards were issued, but about 50 are now in collectors' hands. A very popular card.)

2 <sup>nd</sup>	Gold ("Wild Card VIP Gold Card")	None	Ex Rare	750	□
-----------------	----------------------------------	------	---------	-----	---

(Raised Printing. One blank appeared on the market sometime in early 2002 that came from a former Landmark employee. She only found the one card, despite unfounded rumors to the contrary. That brings the total known pieces in collectors' hands to exactly 3. It is believed that this VIP Gold Card was introduced shortly before the Landmark closed. This card has brought the highest price ever for a slot card: \$1085 on Ebay before the 3<sup>rd</sup> was discovered.)

(NOTE: Before closing, the Landmark ran out of cards. They used a blank silver card and just printed "Landmark" on the obverse. As this was not a manufacturer card, it is no longer listed here as an "officially" collectible card. There was also a blank silver card which said "Landmark Hotel and Casino Wild Card.")

	(Here's how "Reel Rewards" work: When a customer redeems his points for cash, he is given the option of taking double the amount in "Reel Rewards". Since it's a good deal, most people redeem their points this way. The customer is given the Reel Rewards cards and has to play the amount through at least once. Therefore, if he has a \$20 card, he has to gamble \$20 at least once. Whatever is left over can be cashed out.)

In the last Edition we mistakenly reported that these cards were issued in the early 1990's, but since that time we have received first hand testimony to the contrary from collector Emile Giroux. He was possibly the last person ever to be issued a card in this club as he was there right before they closed in July, 1997. He was exactly the 700 <sup>th</sup> person to be issued a permanent Buckaroo Club card. The Virginian was a slot only casino from Dec 1996 to July 1997, when it closed due to a near-complete lack of business!)

## MONTANA

(NOTE: Montana casinos were very small. Cards were very difficult to obtain. As a general rule, most casinos did not want to issue cards to non-locals! If you were lucky enough to get one issued, you only got ONE. Most had you fill out an application and return 1-2 weeks later to pick it up. All of the Montana casinos have done away with cards and gone to a pin number, or magnetic tab. Values are based on their previous availability.)

 (Raised printing. This is the rarest of all known slot cards – now and forever Unique! This card was intended to be a higher level card. However, from the time it was ordered to the time it was received by the slot club, upper level management had changed. The new management didn't like the card and decided to destroy the entire shipment. Before that happened, however, employee Jim Kruse asked if he could keep one card and put his name on it as a souvenir. He was allowed to do so. Shortly after, the rest of the shipment was thrown into a wood chipper outside the casino!)
